DOT Physical /Medical Exam

As of 2014 all commercial drivers must be examined by a medical professional listed on the **National Registry of Certified Medical Examiners**. Your current doctor may not be certified, call your doctor's office first to ask if they are certified to give you DOT physical. If they are not, you can go online to find an office near you that is certified.

The website is: <https://nationalregistry.fmcsa.dot.gov> or you can Google "**National registry of certified medical examiner**" (We have found a few locations under \$100.00- keep your receipt it is tax deductible) See below for some approved locations that other drivers have used.

Once completed, send us your certificate copy or whole report. We will laminate a copy for your wallet and we keep a copy of the report/card in your file and return the originals to you. We will also file it with the DMV.

You must renew your medical certificate before the expiration date; the DMV will remind us when your Medical Examiner's Certificate has 60 days left. If you fail to maintain current, updated information with the DMV, you will lose your interstate driving privileges which is **REQUIRED** for mail Hauling.

If you have any questions or need help finding a location for your exam please contact Colleen (518) 764-2843.

Syracuse Area:

Five Star Urgent Care
8003 Brewerton Road (Route 11)
Cicero, NY 13039
