

Monkey Maze

Monkeying around St Kitts & Nevis

There are thousands of Vervet monkeys living in mountain forests, where they feed off leaves, flowers, berries, fruit and insects.

Vervet monkeys have been there for over 300

Izzy and Israel had a great day counting monkeys while visiting the twin islands of St Kitts and Nevis.

END HERE!

Vervet monkeys are an unbelievable experience. There is so much to learn from these creatures. The island of St. Kitts has more monkeys than they do people.

Monkeys are an important part of the culture and experience on St. Kitts and Nevis. Help them find their way to the island's flag.
