THE SCONE: A History

A **scone** is a single-serving cake or quick bread originating in England, Ireland or Scotland, no one knows for sure. British scones are often lightly sweetened containing raisins, currants or other fruits. There is also savory varieties that may contain cheese, onion or meat. Scones are classically served during afternoon tea often with clotted cream and jams.

At **baked 'n sconed** we have modernized scones. We offer a variety of sweet and savory flavors and put a twist on the traditional with our scones being sweeter and softer, consistent with a mix of cake and biscuit texture. We provide the favorites on a daily basis and seasonally release other flavors (like The Pumpkin Spice Scone in October & November).

If you have a flavor that you want us to make, then let us know. Heck, we might even name it after you. Feel free to message us with any flavor combos you'd love to see at the shop.
