

# 800 Modular Kit

The 8" series kits from RescueVac are the workhorse in the rescue industry. The 8" series can be utilized in collapse, trench and silo incidents to name a few. The 8" series can easily move materials such as bricks, mortar, debris, soils, water sand and gravel.

The RescueVac can transport soil, water, mud, sand, and collapse material from your rescue site 80% faster than traditional methods.

The 8" series kits from RescueVac are the ultimate kit for universal applications.

The modular design allows the user to choose between 3', 7', and 10' tip lengths while not having to purchase or store multiple tips saving space and money.

1 8" x 10'  
Modular Tip

1 8" Vacuum Safety Relief Valve

4 8"X10' (or 2 - 8"X20')
