# Tips

For your

## *Bridal Appointment*

### ♡ Preparations key ♡

It helps us to be able to help you if you have an idea of what you are looking for.

Although you may not purchase a dress you initially liked the style of it helps us with a starting point.

We suggest you try on styles you wouldn't envision yourself in so you can get an idea of what you do and do not like

Have a look at different materials and styles of dresses before your appointment to help you with this.

We will ask you at the start of your appointment whether you have a budget in mind, we ask this so we won't show you anything outside of your budget, we want the experience to be stress free, no one likes to worry about being able to afford their dream dress.
