

# Get Certified in Building Resilient Teams

Attain an industry recognized leadership credential with the **Resilience-Building Leader Program** (RBLP). Building and leading resilient teams that can work together in a challenging environment is a core competency for leaders.

RBLP certification contributes to your personal and professional career development by:

Improved opportunities for selection and advancement

Increased capacity for teams to solve problems and overcome adversity

Increased recognition by peers and respect of colleagues

Increased professional trust from employers and the public

Get certified no matter where you are globally. Our certification exams are conducted 100% online. Exam prep training can be conducted online, in-person, individually, or in groups.

Get certified in Building Resilient Teams. Overcome, Adapt, Grow.

Get a leadership certification that will help your team and organization thrive. Resilient teams are stronger together and they make learning and change possible.
