RE: MEMORANDUM OF SUPPORT - NYS Bills - S8729a May / A9629a Clark

Citadel Insurance is an insurance company providing Errors and Omissions and General Liability nationally, including New York State.

We are aware of the Right To Home Inspection Law Movement, noting that it has become law in Massachusetts and that bills are introduced in both houses of the NYS legislature and appear to be progressing well.

We commend you for your recognition of the vital need to protect homebuyers in such a major investment and for your sponsorship of the NYS bills.

Citadel Insurance is in full support of a robust right to home inspection law in New York and other states.
