195		This is NOT a variable weight pole!									15' 195	15'7" 195	16' 195	16'6 195	
200											15' 200	15'7" 200	16' 200	16'6 200	

NOTE: This chart is a guide for selection, some vaulters with more strength and speed will use a pole 5 to 10 Lbs. or more than this chart.

Secondary Weight Label | 10' to 13' Glass poles have a Secondary weight label. Only for use in Practice until NFHS approves this invention. This secondary weight label is located 8 Inches from top label providing a secondary weight to maximize your inventory with another size pole. Buying these poles provides you a money saving secondary weight of 10 Lbs. greater at the secondary grip. Unlike other pole brands, our pole has a design pattern configuration that accommodates this load and bends symmetrically with a proper return at the secondary handgrip. **Please Catch Pole!** USER assumes all risks and must have a qualified coach present at all times! Poles sold without warranty or Guarantee! **More info www.FiberSportPoles.com**
