At least (2) years of experience in Genetics Counseling or a related field. Must demonstrate knowledge of Genetic Counseling theories, principles, concepts and methods. Able to recognize and address social and psychological needs of patients and family members. Master's degree in Genetics Counseling. Board certified or board eligible for certification by the American Board of Genetic Counseling, or a BA/BS degree plus two (2) years of specialized experience.

621-46 Laboratory – Clinical Laboratory Scientist / Medical Technologist
One (1) year of experience within a medical laboratory/clinical laboratory setting. Associate's degree or higher in medical technology, or four years experience as a medical laboratory technician in lieu of education. Licensure as required by the appropriate state.

621-046 Laboratory - Clinical Research Coordinator I
Experience in clinical research setting with data collection, protocols and clinical trials. Responsible for managing reports, scheduling, data entry, and general support functions. May assist with candidate screening and recruiting. Strong organizational and communication skills required. 0 – 2 years of experience within the Clinical research field. Associate's degree or equivalent experience.

621-046 Laboratory - Research Associate II
Two (2) years of experience within the Clinical research setting. Experience in clinical research setting with protocols and clinical trials. Strong observation and organizational skills and knowledge of US regulatory requirements and research ethics. Bachelor's degree or equivalent experience in related field.

621-046 Laboratory – Clinical Laboratory Technician
Two (2) years of experience within a clinical laboratory setting. Demonstrate experience in performing biological research as well as knowledge in managing and disposing of hazardous waste. Associate's degree or higher in Biology, Life Sciences or a related discipline.

621-48 Dietitian - Technician
Identifies patients with nutritional risk using scoring guidelines and initiates referrals for dietetic assessment. Institutes basic nutrition plans including individualized menu plans and monitors intake and acceptance of meals, snacks, and supplements. Calculates calorie count results. May require an associate's degree and ADA/CDA registration with 0-2 years of experience. Familiar with standard concepts, practices, and procedures within a particular field. Relies on limited experience and judgment to plan and accomplish goals. Performs a variety of tasks.

621-49 Surgical Technologist
Prepares and maintains medical equipment for surgical procedures. Follows hospital regulations and industry procedures to tend to patient during pre-operation procedures. Performs pre-operation preparations to the patient's skin, body and medical equipment. May be required to transport patient to and from the operating room. High school diploma or equivalent. Must be certified to perform CPR with 0-2 years of clinical experience in a related field. Familiar with standard concepts, practices, and procedures within a particular field. Relies on limited experience and judgment to plan and accomplish goals. Performs a variety of tasks.

621-054 Nurse Practitioner
Two (2) years of experience in a clinical setting.
Experience with physical and laboratory assessments.
Master's degree in nursing. Licensed as a nurse practitioner and ANCC certified.

621-056 Sterile Processing Technician

At least one (1) year of experience in performing sterile processing techniques and services. Shall be certified as a Sterile Processing technician by a nationally recognized accrediting agency or complete certification within three (3) months of hire date. High school diploma or equivalent.
