## Our Body

Here are the **Top 100 Questions About Our Body**, grouped into helpful categories for learning, self-reflection, or classroom discussion. These cover anatomy, functions, health, systems, and interesting facts.

---

### **1. General Body Knowledge**

- 1. What are the main parts of the human body?
- 2. How many bones are there in our body?

3. What is the largest organ in the body?
  4. What does the brain do?
  5. What is the role of the heart?
  6. How does our body get energy?
  7. How do we grow taller?
  8. What makes up our blood?
  9. What is skin made of?
  10. Why is water important for our body?
- 

## 2. Skeletal System

11. What is the skeletal system?
  12. How many bones are in an adult human body?
  13. What is the function of bones?
  14. What are joints?
  15. How do bones heal when broken?
  16. What is the longest bone in the body?
  17. What is the smallest bone in the body?
  18. How do bones stay strong?
  19. What is bone marrow?
  20. Why do we need calcium?
- 

## 3. Muscular System

21. What are muscles?

22. How do muscles help us move?
  23. How many muscles do we have?
  24. What is the strongest muscle in the body?
  25. What are voluntary and involuntary muscles?
  26. What is muscle memory?
  27. Why do muscles get sore?
  28. How can we strengthen muscles?
  29. What happens when muscles cramp?
  30. What connects muscles to bones?
- 

#### 4. Circulatory System

31. What is the circulatory system?
  32. How does the heart pump blood?
  33. What are veins and arteries?
  34. What is blood made of?
  35. Why is blood red?
  36. What is a heartbeat?
  37. What is blood pressure?
  38. What is oxygen's role in circulation?
  39. What is anemia?
  40. How do we keep our heart healthy?
- 

#### 5. Respiratory System

41. What is the function of the lungs?
  42. How do we breathe?
  43. What is oxygen and why do we need it?
  44. What are the windpipe and bronchial tubes?
  45. What is carbon dioxide?
  46. How does the nose help in breathing?
  47. Why do we sneeze?
  48. What is asthma?
  49. How do lungs get damaged?
  50. How can we take care of our lungs?
- 

## **6. Digestive System**

51. What happens when we eat food?
  52. What is the role of the stomach?
  53. What is digestion?
  54. What does the liver do?
  55. How is food absorbed into our body?
  56. What is the function of the small intestine?
  57. What happens in the large intestine?
  58. Why is fiber important?
  59. What causes indigestion?
  60. How can we keep our digestive system healthy?
-

## 7. Nervous System

- 61. What is the nervous system?
  - 62. What does the brain control?
  - 63. What is the spinal cord?
  - 64. What are nerves?
  - 65. How do we feel pain or touch?
  - 66. What is a reflex?
  - 67. What is memory?
  - 68. How do we think?
  - 69. How do we see or hear through the brain?
  - 70. What happens during sleep?
- 

## 8. Reproductive & Growth

- 71. How do humans grow?
- 72. What are male and female body parts for reproduction?
- 73. What is puberty?
- 74. Why do children grow taller?
- 75. What are hormones?
- 76. How are babies born?
- 77. What is pregnancy?
- 78. How do we take care of our bodies during growth?
- 79. What is the menstrual cycle?
- 80. Why is personal hygiene important?

---

## 9. Skin, Hair & Nails

- 81. What is the function of skin?
  - 82. Why do we sweat?
  - 83. What causes pimples?
  - 84. Why does hair grow?
  - 85. Why do nails grow?
  - 86. What is dandruff?
  - 87. Why do we get cuts and bruises?
  - 88. What causes sunburn?
  - 89. How do we care for our skin?
  - 90. What causes body odor?
- 

## 10. Interesting Facts & Functions

- 91. Why do we yawn?
- 92. What causes hiccups?
- 93. Why do we blink?
- 94. How do our eyes work?
- 95. How do we hear sounds?
- 96. Why do we dream?
- 97. What is immunity?
- 98. Why do we feel hungry or thirsty?
- 99. Why do our hearts beat faster when we run?

100. How do our bodies heal wounds?

---

Would you like a **printable worksheet**, **quiz version**, or categorized **flashcards** for these questions?

## Our Food

Here are the **Top 100 Questions About Our Food**, thoughtfully grouped into key categories like nutrition, types of food, digestion, health, safety, and food habits. These are perfect for students, teachers, parents, or anyone interested in food science and healthy eating!

---

### 1. Basics of Food

72. What are the school rules we follow?

73. How are emergencies handled in school?

74. Is there a fire drill or safety training?

75. What happens if a student breaks the rules?

76. Are mobiles allowed in school?

77. What is the punishment for cheating?

78. Who maintains discipline in the school?

79. How do teachers deal with bullying?

80. Are ID cards mandatory in school?

---

## **9. Cleanliness and Environment**

81. Who cleans the classrooms and campus?

82. Are dustbins placed in school?

83. Are the washrooms clean and hygienic?

84. Do we have a green campus?

85. Are students taught to keep the school clean?

86. Is there a waste segregation system?

87. Do we use paper or digital homework more?
88. Are lights and fans turned off when not needed?
89. Is our school eco-friendly?
90. Are there plants or trees around the school?
- 

## 10. Reflections and Opinions

91. What do I like most about my school?
92. What would I change if I were the principal for a day?
93. What makes my school different from others?
94. What is my best memory in school?
95. How does my school help me grow?
96. What life lessons have I learned at school?
97. Would I recommend my school to others?
98. What is one thing I would improve in school?
99. How do I feel when I go to school every morning?
100. What would my dream school look like?
-

# People who help us

Here are the **Top 100 Questions About People Who Help Us**, thoughtfully grouped into categories like community helpers, tools they use, where they work, how they help us, and how we can appreciate them. These are ideal for school projects, EVS topics, social studies, or classroom discussions.

---

## 1. Who Are Community Helpers?

1. Who are people who help us?
  2. Why do we need helpers in our daily life?
  3. What is a community helper?
  4. How do community helpers make our lives easier?
  5. Why should we respect people who help us?
  6. What would happen if we didn't have helpers?
  7. Can helpers work indoors and outdoors?
  8. Are all helpers paid for their work?
  9. What are the different types of community helpers?
  10. How do we learn about people who help us?
- 

## 2. Medical Helpers

11. Who is a doctor?
12. What does a nurse do?
13. How does an ambulance driver help us?
14. What tools does a doctor use?
15. Where do doctors work?

16. How do we thank medical helpers?
  17. What is a pharmacist's role?
  18. What is the difference between a clinic and a hospital?
  19. How does a dentist help us?
  20. Why is first aid important?
- 

### **3. Safety and Rescue Workers**

21. Who is a firefighter?
  22. What does a police officer do?
  23. How do firefighters put out fires?
  24. What uniform do police officers wear?
  25. What is an emergency number?
  26. Who rescues people during floods or accidents?
  27. What tools do firefighters use?
  28. Why do police help us feel safe?
  29. What is a traffic police officer's job?
  30. What is the role of coast guards?
- 

### **4. Cleanliness and Maintenance Workers**

31. Who keeps our streets clean?
32. What does a garbage collector do?
33. How do sweepers help us?
34. Why is their work important for health?

35. Who collects garbage from our homes?
  36. What does a plumber do?
  37. What does an electrician do?
  38. What is the role of a mechanic?
  39. What tools do cleaners use?
  40. How can we support sanitation workers?
- 

## 5. Food Helpers

41. Who is a farmer?
  42. What is the job of a chef or cook?
  43. Who brings milk to our house?
  44. What does a fruit seller do?
  45. Who bakes bread and cakes?
  46. Who helps us in restaurants?
  47. What are the tools a farmer uses?
  48. How is food delivered to shops?
  49. What does a vegetable vendor do?
  50. Why are food helpers important?
- 

## 6. Construction and Building Workers

51. Who is a mason?
52. What does a carpenter do?
53. How do engineers help build homes?

- 54. Who drives construction vehicles?
  - 55. What is the job of a welder?
  - 56. Who lays bricks and builds walls?
  - 57. What is the role of an architect?
  - 58. Who builds roads and bridges?
  - 59. What do construction workers wear for safety?
  - 60. How long does it take to build a house?
- 

## **7. People Who Make and Sell Things**

- 61. Who is a tailor?
  - 62. What does a shoemaker do?
  - 63. What does a shopkeeper do?
  - 64. Who repairs watches and clocks?
  - 65. What does a goldsmith do?
  - 66. What is the work of a potter?
  - 67. Who is a weaver?
  - 68. Who is a cobbler?
  - 69. What does a florist do?
  - 70. What is the role of a salesperson?
- 

## **8. Delivery and Transportation Helpers**

- 71. Who is a postman/postwoman?
- 72. What does a courier person do?

- 73. Who drives buses?
  - 74. What is the job of a train conductor?
  - 75. Who drives autos and taxis?
  - 76. How does a pilot help us?
  - 77. Who helps with airport security?
  - 78. What does a delivery boy/girl do?
  - 79. Who delivers LPG gas?
  - 80. How does public transport help a community?
- 

## 9. Education and Office Helpers

- 81. Who is a teacher and how do they help us?
  - 82. Who helps the teacher in the classroom?
  - 83. Who is the school principal?
  - 84. Who manages the school office?
  - 85. Who helps keep the school clean?
  - 86. What does a librarian do?
  - 87. Who helps in school transport?
  - 88. What does a clerk do?
  - 89. Who helps in a computer lab?
  - 90. Why should we thank our school helpers?
- 

## 10. Respect and Appreciation

- 91. How do we show respect to helpers?

92. Why should we say “thank you” to helpers?
  93. How can we help people who help us?
  94. Should we help helpers when they are in need?
  95. How can we keep our surroundings clean for them?
  96. Why should we not look down on anyone’s job?
  97. What can we give helpers as a token of appreciation?
  98. What should we do if we see someone disrespecting a helper?
  99. Why are all jobs important?
  100. What have I learned from the people who help us?
- 

Would you like this list as:

## Our Festivals

Here are the **Top 100 Questions About Our Festivals**, categorized into types of festivals, reasons for celebration, rituals, food, clothing, decorations, and cultural significance. These are perfect for school projects, general knowledge, storytelling, or class discussions.

---

### 1. Introduction to Festivals

1. What is a festival?
2. Why do we celebrate festivals?

3. What are the main types of festivals?
  4. How do festivals bring people together?
  5. What is the difference between national and religious festivals?
  6. How are festivals important for children?
  7. What lessons do festivals teach us?
  8. How do festivals show our culture?
  9. How do different communities celebrate festivals?
  10. Can festivals be celebrated in schools and offices?
- 

## 2. National Festivals (India-specific)

11. What is Independence Day?
  12. When is Republic Day celebrated?
  13. What happens on Gandhi Jayanti?
  14. How do we celebrate these national festivals in school?
  15. What are the national symbols associated with these festivals?
  16. Why is the national flag hoisted?
  17. What is the significance of the national anthem?
  18. How are national festivals celebrated across India?
  19. What do we learn about patriotism through these days?
  20. What role do leaders play in national festivals?
- 

## 3. Religious Festivals

21. What is Diwali and why is it celebrated?

22. What is the story behind Holi?
  23. Why do people celebrate Eid?
  24. What is the significance of Christmas?
  25. What is the meaning of Gurpurab?
  26. Why is Navratri important?
  27. How do people observe Ramzan and Eid-ul-Fitr?
  28. What is Good Friday and Easter?
  29. What does Raksha Bandhan celebrate?
  30. Why is Janmashtami celebrated?
- 

#### 4. Harvest and Seasonal Festivals

31. What is Pongal?
  32. What is Makar Sankranti?
  33. What is Lohri and how is it celebrated?
  34. What is Onam?
  35. Why do we celebrate Bihu in Assam?
  36. What is Basant Panchami and who is worshipped?
  37. How do seasonal changes influence these festivals?
  38. What foods are cooked during these times?
  39. What dances are performed in harvest festivals?
  40. How do farmers participate in these festivals?
- 

#### 5. Festival Rituals and Traditions

41. Why do we light lamps during Diwali?
  42. What is rangoli and when is it made?
  43. What is the importance of fasting in religious festivals?
  44. How do people prepare for festivals?
  45. What are the rituals of Ganesh Chaturthi?
  46. What is the importance of processions during festivals?
  47. How are prayers performed during festivals?
  48. What is the meaning of tying rakhi?
  49. Why do people burst crackers on Diwali?
  50. Why do we play with colors on Holi?
- 

## 6. Festival Food

51. What sweets are made during Diwali?
  52. What special food is prepared for Eid?
  53. What do people eat on Christmas?
  54. What are the traditional dishes of Pongal?
  55. What is the role of feasting in festivals?
  56. Are there any fasting days during festivals?
  57. What is the meaning of sharing food during festivals?
  58. What sweets are offered to gods and goddesses?
  59. How are traditional festival recipes passed down?
  60. What festival dish do you love the most?
-

## 7. Clothes and Decorations

- 61. What do people wear during festivals?
  - 62. Why do we wear new clothes on festivals?
  - 63. What are traditional dresses for Diwali?
  - 64. What are Christmas party outfits like?
  - 65. What are Eid outfits called?
  - 66. How do we decorate our homes during Diwali?
  - 67. What are Christmas trees decorated with?
  - 68. What is toran and where is it hung?
  - 69. What kind of lights are used during festivals?
  - 70. Why do we clean our homes before festivals?
- 

## 8. Cultural Performances

- 71. What dances are performed during Navratri?
- 72. What plays are shown during Ramleela?
- 73. How are carol singing and nativity plays done at Christmas?
- 74. What is dandiya and who plays it?
- 75. What is bhangra and when is it performed?
- 76. What is the role of music in festivals?
- 77. What are community fairs or melas?
- 78. What is a float or tableau in a procession?
- 79. What games do children play during festivals?
- 80. How do festivals support traditional arts?

## 9. Family and Community

81. How do families celebrate festivals together?
  82. What do children do during festivals?
  83. How do neighbours participate in festivals?
  84. How are festivals celebrated in apartments and societies?
  85. How are community halls used during festivals?
  86. Why is giving gifts part of festival traditions?
  87. How do schools celebrate major festivals?
  88. How do friends greet each other during festivals?
  89. How do people share joy during festivals?
  90. How can we celebrate festivals with the needy?
- 

## 10. Global and Social Aspects

91. How are Indian festivals celebrated abroad?
92. What are some global festivals like Halloween, Thanksgiving, or Chinese New Year?
93. Why is it important to learn about other religions' festivals?
94. How do festivals promote unity in diversity?
95. What are eco-friendly ways to celebrate festivals?
96. How can we reduce pollution during Diwali or Holi?
97. What is the importance of non-violence in celebrating festivals?
98. Can we celebrate festivals without spending too much?
99. How do festivals change with time and technology?

100. Why are festivals the heart of our culture?

---

Would you like this list as:

-  A classroom worksheet
-  A festival calendar project
-  A speaking and quiz activity?

Let me know how you'd like to use it!

## Plants around us

Here are the **Top 100 Questions About Plants Around Us**, categorized into types, uses, parts, growth, care, and environmental impact. These questions are great for school projects, EVS lessons, science discussions, nature walks, and curious young minds.

---

### 1. Basic Understanding of Plants

1. What is a plant?
2. Why are plants important to us?
3. How many types of plants are there?
4. What makes a plant different from an animal?
5. How do plants grow?
6. Do all plants need sunlight?
7. Why do plants need water?
8. What is photosynthesis?
9. How do plants make their food?
10. What do plants release during photosynthesis?

---

## 2. Types of Plants

11. What is a tree?
  12. What is a shrub?
  13. What is a herb?
  14. What is a climber?
  15. What is a creeper?
  16. What are aquatic plants?
  17. What are desert plants?
  18. What is a medicinal plant?
  19. What is a flowering plant?
  20. What is a non-flowering plant?
- 

## 3. Common Plants Around Us

21. Which plants grow in gardens?
22. Which trees are found on the roadside?
23. What plants grow in farms?
24. Which plants are used in parks?
25. Which plants are grown in pots at home?
26. What plants grow in the forest?
27. What are the most common flowering plants?
28. What vegetables grow on plants?
29. Which trees are most useful to humans?

30. What are some indoor plants?

---

#### **4. Parts of a Plant**

- 31. What are the parts of a plant?
  - 32. What does the root do?
  - 33. What is the function of the stem?
  - 34. How do leaves help a plant?
  - 35. What is the job of flowers?
  - 36. What are fruits and seeds?
  - 37. Why are leaves called the kitchen of the plant?
  - 38. Do all plants have the same parts?
  - 39. What are thorns, and why do some plants have them?
  - 40. What are tendrils?
- 

#### **5. Plant Life Cycle**

- 41. How does a seed grow into a plant?
- 42. What are the stages of a plant's life?
- 43. How long does it take for a tree to grow?
- 44. What do plants need to grow healthy?
- 45. What is germination?
- 46. Why do some seeds not grow?
- 47. What is pollination?
- 48. What are the agents of pollination?

49. What is fertilization in plants?

50. How do plants reproduce?

---

## **6. Growing and Caring for Plants**

51. How can I grow a plant at home?

52. How often should I water plants?

53. Why should we not overwater plants?

54. What is the best soil for plants?

55. What tools are used for gardening?

56. Why is sunlight important for plants?

57. How can we protect plants from pests?

58. Why should we not pluck flowers or leaves?

59. What is mulching and composting?

60. How do fertilizers help plants grow?

---

## **7. Uses of Plants**

61. What food do we get from plants?

62. What medicines come from plants?

63. How do plants give us oxygen?

64. What materials like paper and wood come from plants?

65. Which plants are used to make clothes?

66. How do plants help animals?

67. What is the role of plants in rain and weather?

- 68. Which plants are used in cooking spices?
  - 69. What are oil-producing plants?
  - 70. What are the plants used in perfumes and cosmetics?
- 

## 8. Plants and Other Living Beings

- 71. How do birds and animals use plants?
  - 72. What are insects that live on or around plants?
  - 73. What is a food chain involving plants?
  - 74. Why do bees visit flowers?
  - 75. Which plants attract butterflies?
  - 76. What is a symbiotic relationship in plants?
  - 77. Do any animals harm plants?
  - 78. Why do some plants trap insects?
  - 79. Are there plants that live on other plants?
  - 80. What is a parasite plant?
- 

## 9. Environmental Role of Plants

- 81. How do trees reduce air pollution?
- 82. What is afforestation?
- 83. What is deforestation, and why is it harmful?
- 84. How do plants stop soil erosion?
- 85. Why are trees called the lungs of the Earth?
- 86. What is a green belt?

87. How do plants help maintain balance in nature?
  88. What happens if there are no plants left?
  89. What are forests and how do they help the Earth?
  90. What is the importance of biodiversity?
- 

## 10. Fun, Curiosities, and Observations

91. What is the tallest tree in the world?
  92. Which tree lives the longest?
  93. What are the fastest-growing plants?
  94. Why do some flowers open only at night?
  95. What is a cactus and how does it survive in deserts?
  96. Which plants can grow without soil (hydroponics)?
  97. Why do leaves change color in autumn?
  98. Are there plants that can move?
  99. Why do some plants smell nice?
  100. What is my favorite plant and why?
- 

Would you like this in a format like:

-  **A science project worksheet**
-  **A plant observation journal**
-  **A question game or quiz?**

Let me know how you'd like to use it!

# Animals around us

Here are the **Top 100 Questions About Animals Around Us**, organized into categories such as types, features, habitats, food, behavior, uses, and how we care for them. These are perfect for school projects, EVS lessons, general knowledge, or nature exploration activities.

---

## 1. Introduction to Animals

1. What is an animal?
  2. How are animals different from plants?
  3. What are wild animals?
  4. What are domestic animals?
  5. What are pet animals?
  6. What are farm animals?
  7. What is the difference between birds and animals?
  8. What are reptiles?
  9. What are aquatic animals?
  10. What are insects?
- 

## 2. Domestic and Farm Animals

11. Which animals live on a farm?
12. What do cows give us?
13. What does a hen do on a farm?
14. How do we care for domestic animals?
15. What is the home of a dog called?
16. What does a sheep give us?

17. What is a stable used for?
  18. What is a dairy farm?
  19. Why are horses used on farms?
  20. How do goats help humans?
- 

### 3. Wild Animals

21. Which animals live in the jungle?
  22. What is a carnivore?
  23. What is a herbivore?
  24. What is an omnivore?
  25. Which animals are found in forests?
  26. What does a lion eat?
  27. Why do tigers have stripes?
  28. What animals live in the desert?
  29. How do animals survive in the wild?
  30. How do animals protect themselves?
- 

### 4. Aquatic and Amphibious Animals

31. What animals live in water?
32. What are the parts of a fish?
33. Can frogs live in water and on land?
34. What do whales and dolphins eat?
35. What is a coral reef?

- 36. Which animals have gills?
  - 37. Why do fish swim in schools?
  - 38. What are freshwater animals?
  - 39. What are saltwater animals?
  - 40. What is a turtle?
- 

## 5. Birds and Insects

- 41. What makes a bird a bird?
  - 42. Which birds cannot fly?
  - 43. What do birds eat?
  - 44. What is a bird's nest made of?
  - 45. How do birds help the environment?
  - 46. What are insects?
  - 47. How many legs do insects have?
  - 48. Why are bees important?
  - 49. How do butterflies grow from caterpillars?
  - 50. What is pollination?
- 

## 6. Body Parts and Features

- 51. How many legs does a spider have?
- 52. What is fur?
- 53. What is a beak used for?
- 54. How do animals hear?

- 55. Why do animals have tails?
  - 56. What are claws used for?
  - 57. Why do birds have feathers?
  - 58. What is a shell, and which animals have them?
  - 59. What is a horn?
  - 60. How do animals use their sense of smell?
- 

## 7. Animal Habitats

- 61. What is a habitat?
  - 62. What is a forest habitat?
  - 63. What is a desert habitat?
  - 64. What animals live in cold places like the Arctic?
  - 65. What is a nest, and who lives in it?
  - 66. What is a burrow?
  - 67. What animals live in trees?
  - 68. What animals live underground?
  - 69. What is a den?
  - 70. What is camouflage?
- 

## 8. Animal Babies and Families

- 71. What is a baby cat called?
- 72. What is a baby cow called?
- 73. How do animals take care of their young?

- 74. What is a baby bird called?
  - 75. Which animals lay eggs?
  - 76. Which animals give birth to babies?
  - 77. How do kangaroos carry their babies?
  - 78. Do animals live in families?
  - 79. How long do animal babies stay with their mothers?
  - 80. What do baby animals eat?
- 

## 9. Food and Feeding

- 81. What do animals eat?
  - 82. What is the food chain?
  - 83. What is a predator?
  - 84. What is prey?
  - 85. How do cows chew their food?
  - 86. What do squirrels like to eat?
  - 87. How do snakes eat their food?
  - 88. What do elephants eat?
  - 89. Why do some animals hunt at night?
  - 90. How do birds find food?
- 

## 10. Caring for and Protecting Animals

- 91. How can we take care of animals?
- 92. Why should we not hurt animals?

93. How do animal shelters help animals?
  94. What is animal cruelty?
  95. How can we help stray animals?
  96. Why do some animals become endangered?
  97. What is wildlife conservation?
  98. What is a zoo and how does it help animals?
  99. What is a veterinary doctor?
  100. Why should we love and respect animals?
- 

Would you like this list as:

## Our Earth

Here are the **Top 100 Questions About Our Earth**, organized into categories such as formation, structure, landforms, water bodies, weather, natural resources, and human impact. These are great for school projects, geography lessons, quizzes, or just curious minds!

---

### 1. Introduction to Earth

1. What is Earth?
2. Why is Earth called the "Blue Planet"?
3. How old is the Earth?

4. How was Earth formed?
  5. Why is Earth suitable for life?
  6. What shape is the Earth?
  7. How does the Earth rotate?
  8. What is the Earth's axis?
  9. What is the Earth's orbit?
  10. How long does Earth take to orbit the Sun?
- 

## 2. Earth's Structure

11. What are the different layers of Earth?
  12. What is the crust of the Earth?
  13. What is the mantle?
  14. What is the core made of?
  15. How deep is the Earth's core?
  16. How do scientists study Earth's interior?
  17. What causes earthquakes?
  18. What are tectonic plates?
  19. What happens when plates move?
  20. What is magma?
- 

## 3. Landforms

21. What is a mountain?
22. What is a hill?

23. What is a plateau?
  24. What is a plain?
  25. How are mountains formed?
  26. What is a valley?
  27. What is a desert?
  28. What is a canyon?
  29. What is an island?
  30. What is a volcano?
- 

#### **4. Water Bodies**

31. What percentage of Earth is covered with water?
  32. What is an ocean?
  33. How many oceans are there?
  34. What is a sea?
  35. What is a river?
  36. What is a lake?
  37. What is a pond?
  38. What is groundwater?
  39. What is an iceberg?
  40. What causes ocean waves?
- 

#### **5. Atmosphere and Weather**

41. What is the atmosphere?

42. What are the layers of the atmosphere?
  43. What is weather?
  44. What is climate?
  45. What causes wind?
  46. What is a cloud?
  47. What causes rain?
  48. What is a storm?
  49. What is lightning and thunder?
  50. What is a rainbow?
- 

## **6. Sun, Moon, and Earth**

51. How does the Sun affect the Earth?
  52. What causes day and night?
  53. What causes seasons?
  54. Why do we see the Moon in the sky?
  55. What causes the phases of the Moon?
  56. What is an eclipse?
  57. What is a solar eclipse?
  58. What is a lunar eclipse?
  59. What are tides?
  60. What is gravity?
- 

## **7. Natural Resources**

61. What are natural resources?
  62. What is soil?
  63. What is a mineral?
  64. What is coal?
  65. What is petroleum?
  66. What is natural gas?
  67. What are forests?
  68. Why are forests important?
  69. What are renewable resources?
  70. What are non-renewable resources?
- 

## 8. Living on Earth

71. What is a habitat?
  72. What is biodiversity?
  73. What is a forest ecosystem?
  74. What is a desert ecosystem?
  75. What animals live on land?
  76. What animals live in water?
  77. What is the food chain?
  78. What is the balance of nature?
  79. What is a natural disaster?
  80. What are the effects of floods and droughts?
-

## **9. Human Impact on Earth**

81. What is pollution?
  82. What causes air pollution?
  83. What causes water pollution?
  84. What causes soil pollution?
  85. What is deforestation?
  86. How does littering harm the Earth?
  87. What is climate change?
  88. What is global warming?
  89. What can we do to protect the Earth?
  90. Why should we recycle?
- 

## **10. Fun and Facts About Earth**

91. How many continents are there on Earth?
92. Which is the largest continent?
93. What is the smallest ocean?
94. Which is the highest mountain on Earth?
95. What is the deepest ocean trench?
96. What is the longest river in the world?
97. What is the hottest place on Earth?
98. What is the coldest place on Earth?
99. How do astronauts see Earth from space?
100. Why is it important to care for our planet?

---

Would you like this turned into:

-  A **classroom worksheet**
-  A **poster project**
-  A **quiz game** for students?

Let me know how you'd like to use it!

## Air Around Us

Here are the **Top 100 Questions About Air Around Us**, organized into categories such as composition, properties, importance, movement, weather, pollution, and how we use and protect air. These are perfect for school projects, EVS lessons, science activities, and quiz games.

---

### 1. Introduction to Air

1. What is air?
2. Is air visible?
3. Does air have weight?
4. Can we live without air?
5. How do we know air is around us?
6. Can we feel air?
7. What are the uses of air?
8. Is air everywhere on Earth?
9. Can air be stored?
10. Does air take up space?

---

## 2. Composition of Air

11. What is air made of?
  12. What is oxygen?
  13. What is nitrogen?
  14. What is carbon dioxide?
  15. What is water vapor?
  16. What are noble gases?
  17. What gases do we breathe in?
  18. Which gas do we breathe out?
  19. Why is oxygen important?
  20. Which gas helps plants in photosynthesis?
- 

## 3. Properties of Air

21. What are the properties of air?
22. Does air occupy space?
23. Can air be compressed?
24. How does air pressure work?
25. How does air move?
26. What is wind?
27. What is the speed of air?
28. How does air help in burning?
29. Can air carry sound?

30. How does air help in flying objects?

---

#### **4. Air and Life**

- 31. Why do humans need air?
  - 32. How do animals breathe?
  - 33. Do plants also need air?
  - 34. What is respiration?
  - 35. How do fish get oxygen?
  - 36. Can we live on the Moon where there is no air?
  - 37. Why do mountaineers carry oxygen cylinders?
  - 38. What happens when there is no oxygen?
  - 39. How does air help in seed dispersal?
  - 40. How does air support burning?
- 

#### **5. Movement of Air**

- 41. What causes wind?
- 42. What is a breeze?
- 43. What is a storm?
- 44. What is a cyclone?
- 45. How does air help in flying kites?
- 46. How do birds use air to fly?
- 47. What is wind energy?
- 48. How do windmills work?

49. What are the effects of strong winds?

50. What is the Beaufort wind scale?

---

## 6. Air and Weather

51. What is the role of air in weather?

52. How does air cause clouds to form?

53. What is humidity?

54. How does warm air behave?

55. How does cold air behave?

56. What is air pressure?

57. How does air affect temperature?

58. What causes thunderstorms?

59. What is the role of air in rain?

60. How does air movement cause weather changes?

---

## 7. Air Pollution

61. What is air pollution?

62. What causes air pollution?

63. How does vehicle smoke affect air?

64. What is smog?

65. How do factories pollute the air?

66. What is the effect of burning garbage on air?

67. How does air pollution affect humans?

- 68. How does polluted air harm animals and plants?
  - 69. What are harmful gases in polluted air?
  - 70. What are the symptoms of breathing polluted air?
- 

## **8. Protecting and Cleaning Air**

- 71. How can we reduce air pollution?
  - 72. What are air purifiers?
  - 73. How do trees clean the air?
  - 74. What are green zones?
  - 75. Why should we plant more trees?
  - 76. Why is public transport better for air quality?
  - 77. How does using bicycles help the environment?
  - 78. How can we stop people from burning plastic?
  - 79. What are anti-pollution masks?
  - 80. What is the importance of World Air Quality Day?
- 

## **9. Uses of Air in Daily Life**

- 81. How is air used in balloons?
- 82. Why do tires have air?
- 83. How does air help in playing wind instruments?
- 84. How do parachutes work using air?
- 85. How do gliders and planes fly using air?
- 86. How is air used in inflating things?

87. How do scuba divers use compressed air?
  88. How is air used in air conditioners?
  89. How is air used in air brakes and tools?
  90. What is an air compressor?
- 

## 10. Fun Facts and Curiosities

91. What color is air?
  92. Can air be frozen?
  93. Is there air in space?
  94. Why does our voice change on a windy day?
  95. What happens when air is heated?
  96. What happens when air is cooled?
  97. What is a vacuum?
  98. Can air be seen under a microscope?
  99. Why do our ears pop in airplanes?
  100. How do astronauts breathe without air?
- 

Would you like this as:

-  **A quiz game**
-  **A student worksheet**
-  **A project booklet?**

Let me know how you'd like to use it!

# Air around us

Here are the **Top 100 Questions About Air Around Us**, divided into easy-to-understand categories. These are perfect for EVS and science topics for classes 3–7, school quizzes, projects, or general curiosity about the invisible but essential blanket of life: **air**.

---

## 1. What Is Air?

1. What is air made of?
  2. Is air visible?
  3. Can we touch or feel air?
  4. Does air have color?
  5. Can air be smelled or tasted?
  6. Why can't we see air?
  7. How do we know air is present?
  8. Is air found everywhere on Earth?
  9. Is air matter?
  10. Does air have weight?
- 

## 2. Composition of Air

11. What gases are found in air?
12. Which gas is most abundant in air?
13. What is oxygen used for in our body?
14. What is nitrogen used for?
15. What is carbon dioxide and why is it important?
16. What is water vapor in air?

17. Do plants use air?
  18. How do animals use the oxygen in air?
  19. What are dust and smoke particles in air?
  20. Are germs found in air?
- 

### **3. Properties of Air**

21. Does air occupy space?
  22. Does air have mass?
  23. Can air be compressed?
  24. What happens when we remove air from a container?
  25. Can air dissolve in water?
  26. How does air move?
  27. Can air be stored?
  28. What is air pressure?
  29. How does temperature affect air?
  30. How do we prove that air exists?
- 

### **4. Air Movement (Winds)**

31. What is wind?
32. What causes wind?
33. How does warm air move?
34. What is a breeze?
35. What is a storm?

36. What are cyclones?
  37. What are trade winds?
  38. What is a gust of wind?
  39. How can wind be measured?
  40. What is a wind vane?
- 

## **5. Importance of Air**

41. Why is air important for living beings?
  42. How do humans use air?
  43. How do birds and animals depend on air?
  44. How do plants use air for photosynthesis?
  45. Why is air needed for burning?
  46. Can life exist without air?
  47. What happens when air is polluted?
  48. How does air help in hearing sounds?
  49. How does air help in the water cycle?
  50. Why is air called a life-supporting gas?
- 

## **6. Air in Daily Life**

51. How does air help in flying kites?
52. How do airplanes fly using air?
53. Why do tyres have air?
54. How does air help parachutes?

- 55. How does air help in drying clothes?
  - 56. Why do footballs and balloons need air?
  - 57. How is air used in air conditioners?
  - 58. What is an air pump used for?
  - 59. What is an air compressor?
  - 60. How does air help musical instruments like flutes?
- 

## 7. Air and Weather

- 61. How does air affect weather?
  - 62. What is humidity?
  - 63. How does air cause clouds to form?
  - 64. What is fog?
  - 65. What causes rain and storms?
  - 66. How is air involved in snow formation?
  - 67. How does wind affect temperature?
  - 68. What are weather balloons?
  - 69. What is a cyclone and how is it related to air?
  - 70. Why do weather forecasts mention air pressure?
- 

## 8. Air Pollution

- 71. What is air pollution?
- 72. What are the main causes of air pollution?
- 73. How do vehicles pollute air?

- 74. How do factories cause air pollution?
  - 75. What is smog?
  - 76. How does burning garbage pollute the air?
  - 77. What health problems are caused by polluted air?
  - 78. How does polluted air affect plants?
  - 79. How does polluted air affect animals and birds?
  - 80. Can polluted air cause acid rain?
- 

## 9. Protecting Air

- 81. How can we reduce air pollution?
  - 82. Why should we use bicycles and public transport?
  - 83. How do trees help clean the air?
  - 84. What are green zones?
  - 85. How do air purifiers work?
  - 86. What is the role of plants in purifying air?
  - 87. Why is it important to avoid burning plastic?
  - 88. How does recycling help the air?
  - 89. How do anti-pollution laws work?
  - 90. What can we do to keep the air clean at school?
- 

## 10. Fun Facts and Critical Thinking

- 91. Why do our ears pop in airplanes?
- 92. Is there air on the Moon or Mars?

93. What is vacuum and how is it different from air?
  94. What would happen if Earth lost its air for 10 seconds?
  95. What is the atmosphere?
  96. What are the layers of the atmosphere?
  97. Can air be frozen or boiled?
  98. What is the cleanest place on Earth in terms of air?
  99. How do astronauts breathe in space?
  100. What will happen to Earth if we don't take care of the air?
- 

Would you like this list in a printable **worksheet**, a **quiz format**, or a **project booklet**? Let me know and I can prepare it for you!

## Water

Here are the **Top 100 Questions About Water**, grouped into categories such as properties, sources, uses, the water cycle, conservation, and more. These are perfect for EVS, science classes, school projects, quizzes, or general knowledge.

---

### 1. Introduction to Water

1. What is water?
2. Why is water important for life?
3. Can we live without water?
4. How much of Earth is covered with water?
5. What does water look like?
6. What are the three forms of water?
7. Is water a solid, liquid, or gas?

8. What is the chemical formula of water?
  9. How does water feel?
  10. Is water always clean?
- 

## **2. Sources of Water**

11. What are the natural sources of water?
  12. What is surface water?
  13. What is groundwater?
  14. What is rainwater?
  15. What is a river?
  16. What is a lake?
  17. What is a pond?
  18. What is a spring?
  19. What are glaciers?
  20. How is water stored in dams?
- 

## **3. Water Bodies**

21. What is an ocean?
22. How many oceans are there?
23. What is a sea?
24. What is the longest river in the world?
25. What is the deepest ocean?
26. What is the difference between a lake and a pond?

27. What is a waterfall?
  28. What is an estuary?
  29. What are wetlands?
  30. What is a reservoir?
- 

#### **4. The Water Cycle**

31. What is the water cycle?
  32. What is evaporation?
  33. What is condensation?
  34. What is precipitation?
  35. What is collection?
  36. How does the Sun help in the water cycle?
  37. What forms clouds?
  38. What causes rainfall?
  39. What happens to rain after it falls?
  40. Why is the water cycle important?
- 

#### **5. Uses of Water**

41. What do we use water for?
42. How do animals use water?
43. How do plants use water?
44. Why do we need water to cook?
45. How do we use water for cleaning?

- 46. How is water used in farming?
  - 47. How is water used in factories?
  - 48. What is hydroelectricity?
  - 49. How is water used for recreation?
  - 50. Can we use seawater for drinking?
- 

## 6. Properties of Water

- 51. What are the physical properties of water?
  - 52. Is water tasteless?
  - 53. Is water odorless?
  - 54. Is water colorless?
  - 55. Can water dissolve things?
  - 56. Is water a conductor of electricity?
  - 57. What is the boiling point of water?
  - 58. What is the freezing point of water?
  - 59. How does water expand on freezing?
  - 60. Why is ice lighter than water?
- 

## 7. Water and Living Things

- 61. How do humans use water?
- 62. Why do plants need water?
- 63. What happens if a plant doesn't get water?
- 64. What do animals do when water is scarce?

- 65. How does water help in digestion?
  - 66. How much water is in the human body?
  - 67. Why is drinking clean water important?
  - 68. What diseases are caused by dirty water?
  - 69. How can we keep water safe to drink?
  - 70. What is dehydration?
- 

## 8. Clean and Dirty Water

- 71. What is clean water?
  - 72. What is dirty or polluted water?
  - 73. How does water get dirty?
  - 74. What are common pollutants in water?
  - 75. What is sewage?
  - 76. What are waterborne diseases?
  - 77. How do we purify water at home?
  - 78. What is filtration?
  - 79. What is boiling and how does it clean water?
  - 80. What is chlorination?
- 

## 9. Water Conservation

- 81. Why should we save water?
- 82. What is water scarcity?
- 83. How can we save water at home?

84. What is rainwater harvesting?
  85. How do farmers conserve water?
  86. What is drip irrigation?
  87. What is a drought?
  88. Why should we not waste water while brushing teeth?
  89. How can schools save water?
  90. What can children do to conserve water?
- 

## 10. Global & Fun Facts

91. Which country has the most freshwater?
  92. Which is the driest place on Earth?
  93. What is a tsunami and how is it related to water?
  94. What is an aquifer?
  95. How deep is the Mariana Trench?
  96. What is desalination?
  97. Can we drink rainwater?
  98. What is the longest river in India?
  99. What is the cleanest river in the world?
  100. What will happen if we run out of fresh water?
- 

Would you like this as a:

-  Printable worksheet
-  Quiz or activity game

- 🎨 Project or poster for school?

Let me know how you'd like to use it!

## Good Habits

Here are the **Top 100 Questions About Good Habits**, organized into themes such as personal hygiene, manners, health, school behavior, kindness, and daily routines. These questions are perfect for EVS, moral science, character-building lessons, classroom discussions, and personal reflection.

---

### 🧼 1. Personal Hygiene Habits

1. What is personal hygiene?
  2. Why should we brush our teeth twice a day?
  3. Why is bathing every day important?
  4. How often should we wash our hands?
  5. Why should we cut our nails regularly?
  6. Why should we wear clean clothes?
  7. Why should we comb our hair daily?
  8. Why is it important to keep our surroundings clean?
  9. When should we wash our hands?
  10. Why should we cover our mouth when sneezing?
- 

### 🍎 2. Healthy Eating Habits

11. What is a balanced diet?
12. Why should we eat fruits and vegetables?
13. Why should we avoid junk food?

14. How many glasses of water should we drink daily?
  15. Why is breakfast the most important meal of the day?
  16. Why should we eat on time?
  17. Why should we chew our food properly?
  18. What are healthy snacks?
  19. Why is overeating harmful?
  20. Why should we not waste food?
- 

### 3. Daily Routine and Discipline

21. Why should we wake up early?
  22. Why is it important to go to bed on time?
  23. How does having a routine help us?
  24. Why is time management important?
  25. What should we do after waking up?
  26. What should we do before going to bed?
  27. Why should we pack our school bag the night before?
  28. Why is it important to follow a study timetable?
  29. Why should we make our bed every morning?
  30. Why should we finish our homework on time?
- 

### 4. Good Habits at School

31. Why should we listen to our teachers?
32. Why is it important to obey school rules?

33. Why should we be punctual?
  34. Why should we raise our hand to speak in class?
  35. Why should we respect school property?
  36. How can we be a good team member?
  37. Why should we complete our classwork?
  38. How can we keep our classroom clean?
  39. Why should we not talk during lessons?
  40. Why should we help our classmates?
- 

## 5. Good Manners and Respect

41. What are good manners?
  42. Why should we say "please" and "thank you"?
  43. Why should we greet others politely?
  44. Why should we respect our elders?
  45. How do we show respect to our teachers?
  46. Why should we not interrupt others when they're speaking?
  47. Why should we wait for our turn?
  48. Why is saying "sorry" important?
  49. Why should we speak kindly to everyone?
  50. Why is honesty a good habit?
- 

## 6. Helping and Kindness

51. Why should we help others?

52. What are some ways we can be kind every day?

53. How can we help at home?

54. Why is sharing a good habit?

55. Why should we help the elderly?

56. How can we help someone who is sad?

57. How can we help a classmate in need?

58. Why should we care for animals?

59. What can we do for the environment?

60. Why should we donate to the needy?

---

## 7. Good Habits with Technology

61. Why should we limit screen time?

62. Why should we not use phones while eating?

63. How can we use the internet wisely?

64. Why should we not watch too much TV?

65. Why should we avoid violent games?

66. What are safe practices when using the internet?

67. Why should we not use phones during study time?

68. How can we use technology for learning?

69. Why is it important to take screen breaks?

70. Why should we ask an adult before downloading apps?

---

## 8. Environmental Habits

71. Why should we not litter?
  72. Why should we turn off taps when not in use?
  73. Why should we switch off lights and fans when leaving a room?
  74. Why is recycling a good habit?
  75. What are the benefits of planting trees?
  76. Why should we use reusable bags?
  77. Why is saving water important?
  78. Why should we avoid single-use plastics?
  79. How can we protect nature every day?
  80. What are eco-friendly habits?
- 

## 9. Physical and Mental Wellness

81. Why is daily exercise important?
  82. What are some simple exercises we can do daily?
  83. How does playing outside help us?
  84. Why is walking better than using a vehicle for short distances?
  85. Why should we learn to meditate or relax?
  86. How can reading be a good habit?
  87. How does listening to music help us feel better?
  88. Why is it good to stay calm in difficult situations?
  89. How can we handle anger or stress?
  90. What are ways to stay positive?
-

## 10. Self-Development and Character

91. Why is telling the truth a good habit?
92. What does it mean to be responsible?
93. How can we become more confident?
94. What does it mean to have self-control?
95. Why should we be grateful?
96. What is a growth mindset?
97. Why is reading a good habit for life?
98. How can we set goals and achieve them?
99. Why is it important to forgive others?
100. How do good habits make us better people?

---

## Early Humans

Here are the **Top 100 Questions About Early Humans**, organized into themes like evolution, lifestyle, tools, food, clothing, homes, communication, and discoveries. These are ideal for history, social science, EVS lessons, class projects, quizzes, and general knowledge.

---

## 1. Evolution and Origin

1. Who were early humans?
2. When did early humans first appear on Earth?
3. Where did early humans come from?
4. How are early humans different from apes?

5. What is evolution?
  6. Who discovered the theory of human evolution?
  7. How did early humans evolve over time?
  8. What were the first human-like creatures called?
  9. What is "Homo sapiens"?
  10. Why are fossils important in studying early humans?
- 

## 2. Appearance and Physical Features

11. What did early humans look like?
  12. Did early humans walk on two legs?
  13. Why did early humans have more body hair?
  14. How tall were early humans?
  15. What were the differences in their skulls?
  16. Did early humans have sharp teeth?
  17. Did early humans look the same everywhere?
  18. How did early human brains develop?
  19. Why were strong jaws important for early humans?
  20. What changes happened in early human hands?
- 

## 3. Tools and Weapons

21. What tools did early humans use?
22. What were early tools made of?
23. How did early humans make stone tools?

24. What is the Stone Age?
  25. What are the three periods of the Stone Age?
  26. What is the Paleolithic Age?
  27. What is the Mesolithic Age?
  28. What is the Neolithic Age?
  29. How were tools different in each age?
  30. Why were fire and tools important for survival?
- 

#### **4. Discovery and Use of Fire**

31. When did early humans discover fire?
  32. How did early humans create fire?
  33. How did fire change early human life?
  34. What did early humans use fire for?
  35. Did early humans know how to cook food?
  36. How did fire help protect early humans?
  37. How did fire improve their tools?
  38. Did early humans worship fire?
  39. Where did early humans keep fire?
  40. How did fire help in communication?
- 

#### **5. Shelter and Homes**

41. Where did early humans live?
42. Did early humans build houses?

43. What were caves used for?
  44. Why did early humans move from place to place?
  45. How did early humans choose places to live?
  46. When did early humans start building huts?
  47. What materials were used for early shelters?
  48. What is a nomad?
  49. What is a temporary shelter?
  50. Why did early humans settle near water?
- 

## 6. Food and Hunting

51. What did early humans eat?
  52. How did they hunt animals?
  53. What is foraging?
  54. What did early humans gather?
  55. What tools helped in hunting?
  56. How did they cook food?
  57. Did early humans eat fruits and roots?
  58. When did they start farming?
  59. What is domestication?
  60. Which animals were first domesticated?
- 

## 7. Clothing and Appearance

61. What did early humans wear?

62. When did they start using clothes?
