# Living and non living things

Here are Top 100 General Knowledge Questions on Living and Non-Living Things, ideal for primary and middle school learners:

## Top 100 Questions on Living and Non-Living Things

- Basic Identification (1–20)
  - 1. What are living things?
  - 2. What are non-living things?
  - 3. Can living things grow?
  - 4. Can non-living things grow?
  - 5. Do living things move on their own?
  - 6. Do non-living things breathe?
  - 7. Name 5 living things.
  - 8. Name 5 non-living things.
  - 9. Is a tree a living thing?
  - 10. Is a chair a living thing?
  - 11. Can non-living things die?
  - 12. Do living things need food?

- 13. Do non-living things need water?
- 14. Name a living thing that flies.
- 15. Name a non-living thing found in a classroom.
- 16. Which living thing lays eggs?
- 17. Which living thing gives birth to babies?
- 18. Is the sun a living thing?
- 19. Is a robot a living or non-living thing?
- 20. Is air a living thing?

#### Characteristics of Living Things (21–40)

- 21. Do all living things breathe?
- 22. How do plants breathe?
- 23. How do animals grow?
- 24. What do humans need to live?
- 25. How do birds move?
- 26. What is reproduction in living things?
- 27. Do all living things reproduce?
- 28. How do fish breathe underwater?
- 29. What are the five senses?
- 30. How do animals sense danger?
- 31. What do plants need to grow?
- 32. What is photosynthesis?

- 33. Can a seed grow into a plant?
- 34. Do living things respond to touch?
- 35. Name a plant that moves on its own.
- 36. Can animals feel pain?
- 37. What do we mean by excretion?
- 38. Do all living things excrete waste?
- 39. What does respiration mean in living things?
- 40. Why do living things sleep?

#### Differences Between Living and Non-Living (41–60)

- 41. How can you tell if something is alive?
- 42. Do living things need oxygen?
- 43. What are 3 differences between living and non-living things?
- 44. Is a rock living or non-living? Why?
- 45. Is fire living or non-living? Why?
- 46. Can non-living things change shape?
- 47. Can a computer grow?
- 48. Do toys move on their own?
- 49. Why is water not considered a living thing?
- 50. Why is a baby considered a living thing?
- 51. Is a mountain living or non-living?
- 52. Can a balloon breathe?

- 53. Why is soil not a living thing?
- 54. Are dead animals living or non-living?
- 55. What happens when a living thing dies?
- 56. Do viruses count as living or non-living?
- 57. Why is movement not the only way to know something is living?
- 58. What are the seven characteristics of life?
- 59. Why can't a car be called a living thing even if it moves?
- 60. Are clouds living or non-living?

#### Examples and Classification (61–80)

- 61. Name a living thing that cannot move.
- 62. Name a non-living thing that can move with help.
- 63. Is a mushroom living or non-living?
- 64. Are fruits living or non-living?
- 65. Is milk a living thing?
- 66. Is a shadow living or non-living?
- 67. Are fungi living things?
- 68. Are bacteria living things?
- 69. Are plants autotrophs or heterotrophs?
- 70. Are pets living things?
- 71. What makes animals different from plants?
- 72. Why do plants not move like animals?

- 73. What is the difference between natural and man-made non-living things?
- 74. Are seeds living things?
- 75. Are bones living or non-living?
- 76. Is hair a living thing?
- 77. Are eggs living or non-living?
- 78. Are fossils living or non-living?
- 79. Can living things be invisible?
- 80. Can a virus reproduce?

#### Activities and Thinking (81–100)

- 81. Classify 5 objects in your room into living and non-living.
- 82. Draw a living thing and label its parts.
- 83. Draw a non-living thing you use every day.
- 84. Write a short paragraph about a tree as a living thing.
- 85. List 3 ways you know your pet is alive.
- 86. Observe and record a plant's growth for a week.
- 87. Why do we water plants?
- 88. What happens if living things don't get food?
- 89. Can something be both living and non-living? Explain.
- 90. What would happen if all living things disappeared?
- 91. What would happen if all non-living things disappeared?
- 92. Make a model showing living vs non-living items.

- 93. Interview your family: What do they think is living or non-living?
- 94. Write a poem about living things.
- 95. Make a list of living things found in water.
- 96. Make a list of non-living things found in nature.
- 97. Create a guiz for your friend on living and non-living things.
- 98. Write a story with one living and one non-living character.
- 99. What questions would you ask to know if something is living?
- 100. Why is it important to learn about living and non-living things?

Would you like this as a **PDF worksheet** or categorized in **quiz/MCQ format** too?

# Plants around us

Here are the Top 100 General Knowledge Questions on "Plants Around Us" — perfect for students in primary and middle school levels.

#### Top 100 Questions on Plants Around Us

### Basic Questions (1-20)

- 1. What is a plant?
- 2. Name any five plants around us.
- 3. Do plants make their own food?
- 4. What is photosynthesis?
- 5. Name the main parts of a plant.

- 6. What is the function of roots?
- 7. What is the function of leaves?
- 8. What is the stem used for?
- 9. Name a plant that grows in water.
- 10. Name a plant that grows in deserts.
- 11. Name any three flowering plants.
- 12. Name any three non-flowering plants.
- 13. What is a tree?
- 14. What is a shrub?
- 15. What is a herb?
- 16. Name a tree that gives us shade.
- 17. Name a plant that grows on another plant.
- 18. Which plant is known for its medicinal value?
- 19. Name a plant with thorns.
- 20. Name a plant that climbs.

# ¥ Types of Plants (21–40)

- 21. What are herbs? Give two examples.
- 22. What are shrubs? Give two examples.
- 23. What are trees? Give two examples.
- 24. What are climbers? Give two examples.
- 25. What are creepers? Give two examples.

- 26. What is a cactus?
- 27. What is the difference between a shrub and a tree?
- 28. What are aquatic plants?
- 29. Name two floating plants.
- 30. Name two underwater plants.
- 31. What is an evergreen tree?
- 32. What is a deciduous tree?
- 33. Name a plant that lives for only one season.
- 34. What are annual plants?
- 35. What are biennial plants?
- 36. What are perennial plants?
- 37. Name a tree that grows very tall.
- 38. Name a tree that bears fruit.
- 39. Which plant is called the "green gold"?
- 40. Name a plant that gives us fiber.

# Parts of Plants (41-60)

- 41. What are the parts of a plant?
- 42. What is the function of flowers?
- 43. What is the function of fruits?
- 44. What is the function of seeds?
- 45. What is the role of chlorophyll?

- 46. Why are leaves green?
- 47. What happens when a leaf falls off?
- 48. How do roots help the plant?
- 49. What is a tap root?
- 50. What is a fibrous root?
- 51. What is a bud?
- 52. Which part of the plant holds it upright?
- 53. Which part of the plant absorbs water?
- 54. Which part helps in reproduction?
- 55. What part of the plant do we eat in carrots?
- 56. What part of the plant do we eat in potatoes?
- 57. What part of the plant do we eat in spinach?
- 58. What part of the plant do we eat in apple?
- 59. What part of the plant do we eat in rice?
- 60. What part of the plant do we eat in wheat?

# Uses of Plants (61–80)

- 61. How do plants help us breathe?
- 62. Name three plants that give us food.
- 63. Name two plants that give us oil.
- 64. Name two plants that give us wood.
- 65. Name three vegetables that grow underground.

- 66. Name three fruits that grow on trees.
- 67. How do plants help animals?
- 68. How do animals help plants?
- 69. What is the importance of trees?
- 70. How do plants help the environment?
- 71. Name two plants used in making medicines.
- 72. Which plant gives us rubber?
- 73. Which plant gives us paper?
- 74. Which plant gives us cotton?
- 75. Which plant gives us jute?
- 76. Which plant is used in perfumes?
- 77. Name a plant used to make tea.
- 78. Name a plant used to make coffee.
- 79. Which part of the sugarcane plant is used to make sugar?
- 80. Which plant gives us spices like cardamom and clove?

#### Plant Habitats & Growth (81–100)

- 81. What do plants need to grow?
- 82. How do seeds grow into plants?
- 83. What is germination?
- 84. What is a seedling?
- 85. What is pollination?

- 86. What helps flowers turn into fruits?
- 87. What are the agents of pollination?
- 88. What is dispersal of seeds?
- 89. Name three ways seeds are dispersed.
- 90. What is a nursery?
- 91. Why should we not cut trees?
- 92. How can we protect plants?
- 93. Why should we water plants?
- 94. Why is sunlight important for plants?
- 95. What happens if a plant doesn't get sunlight?
- 96. What happens if you overwater a plant?
- 97. How do plants adapt in the desert?
- 98. How do aquatic plants adapt to water?
- 99. What is a bonsai?
- 100. What are endangered plants?

Would you like this list as a PDF, quiz format, or with illustrations for each question?

# Animals around Us

Here are the **Top 100 General Knowledge Questions on "Animals Around Us"** — ideal for students from Grades 1 to 6, and useful for worksheets, quizzes, or classroom activities.

#### Basic Knowledge (1–20)

- 1. What is an animal?
- 2. Name five animals we see around us.
- 3. What is a pet animal?
- 4. What is a wild animal?
- 5. Name three pet animals.
- 6. Name three wild animals.
- 7. Name two animals that live in water.
- 8. Name two animals that fly.
- 9. Name a land animal.
- 10. Name an animal that can live both in water and on land.
- 11. Which animal is called the "king of the jungle"?
- 12. Which is the tallest animal?
- 13. Which is the largest animal on Earth?
- 14. Which is the fastest animal on land?
- 15. Which animal has a trunk?
- 16. Which animal gives us milk?
- 17. Name an animal that lays eggs.
- 18. Name an animal that gives birth to babies.
- 19. Name a nocturnal animal.
- 20. Name an animal that can change its color.

#### Classification (21–40)

- 21. What are domestic animals?
- 22. What are farm animals?
- 23. What are wild animals?
- 24. Name five domestic animals.
- 25. Name five farm animals.
- 26. Name five wild animals.
- 27. What are herbivores?
- 28. What are carnivores?
- 29. What are omnivores?
- 30. Give two examples of herbivores.
- 31. Give two examples of carnivores.
- 32. Give two examples of omnivores.
- 33. What are mammals?
- 34. What are reptiles?
- 35. What are amphibians?
- 36. What are insects?
- 37. Name three insects.
- 38. Name two amphibians.
- 39. Name two reptiles.
- 40. Name two mammals that live in water.

#### Animal Features (41–60)

- 41. Which animal has a long neck?
- 42. Which animal has a mane?
- 43. Which animal has stripes?
- 44. Which animal has a pouch to carry its baby?
- 45. Which animal has a shell?
- 46. Which animal hops?
- 47. Which animal uses its tail to hang from trees?
- 48. Which animal has sharp claws?
- 49. Which animal uses echolocation?
- 50. Which animal has feathers?
- 51. Which animal has no legs?
- 52. Which animal has a hump?
- 53. Which animal has tusks?
- 54. Which animal has wings but cannot fly?
- 55. Which is the slowest animal?
- 56. Which animal is covered with scales?
- 57. Which animal breathes through gills?
- 58. What do animals use their senses for?
- 59. Which animals are cold-blooded?
- 60. Which animals are warm-blooded?

#### Animal Homes (61–80)

- 61. Where do lions live?
- 62. Where do rabbits live?
- 63. Where do birds live?
- 64. Where do bees live?
- 65. Where do snakes live?
- 66. Where do frogs live?
- 67. Where do camels live?
- 68. Where do polar bears live?
- 69. Where do penguins live?
- 70. What is a nest?
- 71. What is a burrow?
- 72. What is a den?
- 73. What is a stable?
- 74. What is a coop?
- 75. What is a kennel?
- 76. What is a hive?
- 77. Name one animal that lives in groups.
- 78. Name an animal that makes its own home.
- 79. Which animals live in trees?
- 80. Which animals live underground?

#### Animal Behavior & Importance (81–100)

- 81. What do animals eat?
- 82. Why do animals need shelter?
- 83. Why do animals need water?
- 84. Why do some animals hibernate?
- 85. What is migration in animals?
- 86. Why do birds fly in V-shape during migration?
- 87. Why are bees important?
- 88. Why should we not harm animals?
- 89. How do animals help humans?
- 90. Which animals are used for transport?
- 91. Which animals help in farming?
- 92. Which animals help keep the environment clean?
- 93. Which animals are endangered?
- 94. What are extinct animals?
- 95. What is a food chain?
- 96. What are animal sounds called?
- 97. What do you call the baby of a cat?
- 98. What do you call the baby of a dog?
- 99. How can we protect animals around us?
- 100. Why is it important to care for animals?

Would you like this in a PDF worksheet, quiz format, or with pictures and answers included for each question?

# Parts of a plant

Here are the Top 100 General Knowledge Questions on "Parts of a Plant", suitable for school students (Grades 1 to 6), teachers, or anyone interested in learning botany basics.

#### Top 100 Questions on Parts of a Plant

#### ❤ Basic Knowledge (1–20)

- 1. What are the main parts of a plant?
- 2. Name the part of the plant that grows underground.
- 3. Name the part of the plant that grows above the ground.
- 4. What is the function of roots?
- 5. What is the function of the stem?
- 6. What do leaves do for the plant?
- 7. What is the role of flowers in a plant?
- 8. What is the fruit of a plant?
- 9. What part of the plant contains seeds?
- 10. Name a plant whose root we eat.
- 11. Name a plant whose stem we eat.
- 12. Name a plant whose leaves we eat.
- 13. Name a plant whose flower we eat.

- 14. Name a plant whose seeds we eat.
- 15. What helps the plant to stand straight?
- 16. What carries water to all parts of the plant?
- 17. What helps the plant to make food?
- 18. What is photosynthesis?
- 19. What part of the plant is green and flat?
- 20. What part of the plant grows first from a seed?

#### **Leaves (21–40)**

- 21. What is the shape of a banana leaf?
- 22. What is the color of most leaves?
- 23. What gives leaves their green color?
- 24. What do leaves need to make food?
- 25. What is the function of the stomata in leaves?
- 26. What gas do plants take in during photosynthesis?
- 27. What gas do plants release during photosynthesis?
- 28. What happens if a plant has no leaves?
- 29. Which leaf is used to wrap food in India?
- 30. What is the leaf vein?
- 31. What is a leaf blade?
- 32. What is the function of veins in leaves?
- 33. What are simple leaves?

- 34. What are compound leaves?
- 35. Name a plant with needle-like leaves.
- 36. Name a plant with broad leaves.
- 37. Why do desert plants have small leaves?
- 38. How do leaves help in transpiration?
- 39. What is transpiration?
- 40. What happens to leaves in autumn?

#### Flowers (41–60)

- 41. What is a flower?
- 42. What is the role of flowers in plant reproduction?
- 43. Name a plant that has fragrant flowers.
- 44. Name a plant with bright-colored flowers.
- 45. What is pollination?
- 46. What part of the flower produces pollen?
- 47. What attracts bees to flowers?
- 48. What is nectar?
- 49. What is a petal?
- 50. What is a sepal?
- 51. What is the stamen?
- 52. What is the pistil?
- 53. What is fertilization in plants?

- 54. Which flower is used in perfumes?
- 55. Name a flower that blooms at night.
- 56. Name a flower that floats on water.
- 57. Name a flower that grows in winter.
- 58. Why are some flowers not colorful?
- 59. How do flowers become fruits?
- 60. Name a plant whose flower is used in food.

### Fruits & Seeds (61–80)

- 61. What is a fruit?
- 62. How are fruits formed?
- 63. What part of the flower turns into a fruit?
- 64. Name a fruit that has only one seed.
- 65. Name a fruit that has many seeds.
- 66. Name a seedless fruit.
- 67. What is the function of seeds?
- 68. What is a seed coat?
- 69. What is inside a seed?
- 70. What is a seedling?
- 71. What is germination?
- 72. What does a seed need to grow?
- 73. Name a seed that we eat.

- 74. Name a plant that grows from a seed.
- 75. What is dispersal of seeds?
- 76. Name three ways seeds are dispersed.
- 77. What is a monocot seed?
- 78. What is a dicot seed?
- 79. Why are fruits important for plants?
- 80. Name a dry fruit and a juicy fruit.

#### **¼** Roots & Stems (81–100)

- 81. What are the two main types of roots?
- 82. What is a tap root?
- 83. What is a fibrous root?
- 84. Give one example of a plant with a tap root.
- 85. Give one example of a plant with fibrous roots.
- 86. What is the function of root hairs?
- 87. How do roots absorb water?
- 88. Name two underground stems we eat.
- 89. What is the function of a stem?
- 90. What are nodes and internodes in a stem?
- 91. What is a soft stem called?
- 92. What is a woody stem?
- 93. Name a plant with a green stem.

- 94. What are aerial roots?
- 95. Name a plant that stores food in its roots.
- 96. How does the stem help in transportation?
- 97. Why do climbers need support?
- 98. What is a modified stem?
- 99. What is the difference between a root and a stem?
- 100. Why are roots important for plants?

#### Would you like this list:

# **Uses of Plants**

Here are the Top 100 General Knowledge Questions on "Uses of Plants", ideal for students, teachers, quiz makers, and nature lovers. These questions help understand the importance and benefits of plants in our daily lives.

### Top 100 Questions on Uses of Plants

#### Plants as Food Sources (1–25)

1. How do plants provide food to humans?

- 2. Name three plants that give us fruits.
- 3. Name three plants that give us vegetables.
- 4. Name three cereals we get from plants.
- 5. What are pulses? Name two pulses.
- 6. What part of the plant do we eat in carrots?
- 7. What part of the plant do we eat in spinach?
- 8. What part of the plant do we eat in apples?
- 9. Which plant gives us sugar?
- 10. Which plant is used to make tea?
- 11. Which plant is used to make coffee?
- 12. What are spices? Name two spice plants.
- 13. Name two plants whose seeds we eat.
- 14. Name two plants whose leaves we eat.
- 15. Name two plants whose roots we eat.
- 16. What part of the potato plant do we eat?
- 17. Why are green leafy vegetables important?
- 18. Name a plant whose fruit is used in cooking.
- 19. Which plant gives us edible oil?
- 20. What are oil seeds?
- 21. Name a plant used for making pickles.
- 22. Name a plant used in making sweets.
- 23. Which plant's gum is edible?

- 24. Why are cereals important in our diet?
- 25. How do plants help animals with food?

#### Plants as Medicine & Health (26–45)

- 26. Name three plants used in medicines.
- 27. What is the medicinal use of tulsi (basil)?
- 28. How is neem used in medicine?
- 29. Name a plant used to treat cough and cold.
- 30. Which plant is used in making pain relief balm?
- 31. What is aloe vera used for?
- 32. Which plant is used in Ayurvedic medicines?
- 33. What is the use of turmeric in health?
- 34. Can plants be used in home remedies?
- 35. What is the use of mint leaves in medicine?
- 36. Name a plant that helps in digestion.
- 37. What is eucalyptus oil used for?
- 38. What is the benefit of using medicinal plants?
- 39. Which plant helps reduce fever naturally?
- 40. What are herbal medicines?
- 41. Why is the hibiscus plant used for hair care?
- 42. Name a plant used in making toothpaste.
- 43. Which part of the plant is used in medicine?

- 44. How do plant-based medicines differ from chemical ones?
- 45. Are all plants safe to use in medicines?

#### Plants as Raw Materials (46–65)

- 46. Which plant gives us wood?
- 47. What is the use of bamboo?
- 48. Which plant gives us cotton?
- 49. Which plant gives us jute?
- 50. What are fibrous plants?
- 51. What are the uses of plant fibers?
- 52. Which plant gives us rubber?
- 53. Name a plant used to make furniture.
- 54. Which plants are used for paper making?
- 55. How is wood from trees useful?
- 56. What are timber trees?
- 57. Which part of the plant is used to make ropes?
- 58. Which plant is used in making baskets?
- 59. How are coconut leaves used?
- 60. Which plant is used to make mats?
- 61. What is cork and which tree gives it?
- 62. Name a plant used in making brushes.
- 63. How are palm trees useful?

- 64. Name two plants used for making clothes.
- 65. What part of the flax plant is used for linen?

#### Environmental Importance (66–80)

- 66. How do plants help in cleaning the air?
- 67. What gas do plants give us?
- 68. How do plants help control soil erosion?
- 69. What role do trees play in rainfall?
- 70. Why are forests called the lungs of Earth?
- 71. How do plants help reduce pollution?
- 72. What is afforestation?
- 73. How do trees keep the temperature cool?
- 74. What is the importance of planting trees in cities?
- 75. How do plants support biodiversity?
- 76. Why should we not cut trees?
- 77. How do roots prevent floods?
- 78. What is the role of plants in the water cycle?
- 79. How do plants help in making compost?
- 80. Why are trees important in wildlife habitats?

- 81. Name a plant used in perfumes.
- 82. Name a plant used in dyes and coloring.
- 83. Which plants are used in making cosmetics?
- 84. Which plant is used in making soaps?
- 85. Name a plant used in religious rituals.
- 86. Name a plant used in making ink.
- 87. How are plants used for decorations?
- 88. What are ornamental plants?
- 89. Name a flowering plant grown for beauty.
- 90. How do indoor plants help us?
- 91. What is bonsai?
- 92. What are hedges and why are they used?
- 93. How are plants used in fencing?
- 94. How are plants used in landscaping?
- 95. Name two plants used in making essential oils.
- 96. How are plants used in festivals like Diwali?
- 97. What is the importance of planting trees on birthdays or events?
- 98. Can plants be used in making musical instruments?
- 99. How are plants used in making biofuels?
- 100. Why are plants considered our best friends?

# **Animal Sounds**

Here are the **Top 100 General Knowledge Questions on "Animal Sounds"**, ideal for students (Grades 1–5), animal lovers, quizzes, and fun classroom activities. The list covers **identification**, **matching**, **fun facts**, and **uses of sounds in animals**.

### Top 100 Questions on Animal Sounds

#### Basic Questions (1–20)

- 1. What is the sound of a dog called?
- 2. What sound does a cat make?
- 3. What is the sound of a lion called?
- 4. What is the sound of a cow called?
- 5. What sound does a duck make?
- 6. What is the sound of a horse called?
- 7. What sound does a sheep make?
- 8. What is the sound of a pig called?
- 9. What is the sound of a snake called?
- 10. What sound does an elephant make?
- 11. What is the sound of a goat called?
- 12. What sound does a frog make?
- 13. What is the sound of a rooster called?
- 14. What is the sound of a bird called?
- 15. What sound does a donkey make?
- 16. What is the sound of a bear called?
- 17. What is the sound of a wolf called?
- 18. What sound does a hen make?
- 19. What is the sound of a turkey called?
- 20. What is the sound of a monkey called?

#### Match the Animal to the Sound (21–40)

21. Match: Cat -?

22. Match: Owl - ?

23. Match: Snake -?

24. Match: Tiger - ?

25. Match: Cow - ?

26. Match: Bee – ?

27. Match: Parrot -?

28. Match: Duck - ?

29. Match: Fox – ?

30. Match: Peacock – ?

31. Match: Whale -?

32. Match: Chicken -?

33. Match: Dolphin – ?

34. Match: Leopard –?

35. Match: Camel -?

36. Match: Crow – ?

37. Match: Bat - ?

38. Match: Cricket (insect) - ?

39. Match: Hyena –?

40. Match: Zebra - ?

#### True/False & Choose the Correct Sound (41–60)

- 41. True or False: Lions moo.
- 42. True or False: Dogs bark.
- 43. True or False: Frogs roar.
- 44. Choose the sound of a duck: Quack / Moo / Meow
- 45. Choose the sound of a lion: Roar / Bark / Buzz
- 46. Choose the sound of a bee: Chirp / Buzz / Bray
- 47. Choose the sound of a cat: Croak / Meow / Squeak
- 48. Choose the sound of a cow: Moo / Cluck / Roar
- 49. Choose the sound of a wolf: Growl / Howl / Mew
- 50. Choose the sound of a donkey: Bray / Meow / Squeak
- 51. True or False: Elephants bark.
- 52. True or False: Hens cluck.
- 53. Choose the sound of a turkey: Gobble / Honk / Bleat
- 54. Choose the sound of a parrot: Squawk / Moo / Buzz
- 55. Choose the sound of a bat: Screech / Quack / Bark
- 56. Choose the sound of a snake: Hiss / Meow / Coo
- 57. True or False: Monkeys meow.
- 58. True or False: Sheep bleat.
- 59. Choose the sound of a crocodile: Hiss / Roar / Bark
- 60. Choose the sound of a pigeon: Coo / Neigh / Bark

#### Fun Fact Questions (61–80)

- 61. Why do dogs bark?
- 62. Why do cats meow?
- 63. Why do lions roar?
- 64. Why do birds sing?
- 65. Why do wolves howl at night?
- 66. What do frogs use their croaking for?
- 67. What sound do whales make to talk underwater?
- 68. Why do owls hoot at night?
- 69. Which animal makes a trumpeting sound?
- 70. What is a bat's screech used for?
- 71. Which animal's sound is used to find food by echo?
- 72. What is echolocation in animals?
- 73. What is the loudest land animal sound?
- 74. What is the quietest animal sound?
- 75. Can all animals make sounds?
- 76. Why do baby animals make sound?
- 77. What is the use of animal sounds in the forest?
- 78. What does a cat's purring mean?
- 79. What is the role of sound in mating among animals?
- 80. What does a rooster's crow mean?

## Fill in the Blanks / Odd One Out / Matchups (81–100)

- 81. Fill in the blank: A horse \_\_\_\_\_.
- 82. Fill in the blank: A frog \_\_\_\_\_.
- 83. Fill in the blank: A lion \_\_\_\_\_.
- 84. Fill in the blank: A dog \_\_\_\_\_.
- 85. Fill in the blank: A hen \_\_\_\_\_.
- 86. Find the odd one out: Bark Meow Buzz Moo
- 87. Find the odd one out: Quack Roar Mew Honk
- 88. Match:
  - o Dog Bark
  - Cow \_\_\_\_\_
  - Lion \_\_\_\_\_
  - Sheep \_\_\_\_\_

#### 89. Match:

- Bee –
- Cat \_\_\_\_\_
- Pig \_\_\_\_\_\_
- Rooster \_\_\_\_\_
- 90. Write the sound of: Fox
- 91. Write the sound of: Leopard
- 92. Write the sound of: Owl
- 93. Write the sound of: Hyena

- 94. Write the sound of: Goat
- 95. Write the sound of: Peacock
- 96. What sound does a dolphin make?
- 97. What sound does a kangaroo make?
- 98. Do all birds chirp?
- 99. Which animal makes a gobbling sound?
- 100. What sound does a baby lion make?

# Weather and Climate

Here are the Top 100 General Knowledge Questions on "Weather and Climate", designed for students (Grades 3–8), teachers, guiz competitions, and environmental awareness.

These questions cover definitions, types, instruments, climate zones, natural effects, and global issues.

## Top 100 Questions on Weather and Climate

- **Basics of Weather and Climate (1–20)** 
  - 1. What is weather?
  - 2. What is climate?
  - 3. How is weather different from climate?
  - 4. What are the main elements of weather?
  - 5. What are the main elements of climate?
  - 6. What is temperature?
  - 7. What is humidity?
  - 8. What is rainfall?

- 9. What is wind?
- 10. What is air pressure?
- 11. What is a weather report?
- 12. Who studies weather?
- 13. What is the study of weather called?
- 14. What is the study of climate called?
- 15. Why is weather forecasting important?
- 16. Can weather change daily?
- 17. Can climate change daily?
- 18. What is a weather station?
- 19. What tools are used to study weather?
- 20. What is a thermometer used for?

## Weather Instruments (21–40)

- 21. What is a rain gauge?
- 22. What is a barometer?
- 23. What does an anemometer measure?
- 24. What is a hygrometer used for?
- 25. What is a weather satellite?
- 26. What is a weather balloon?
- 27. What is a wind vane?
- 28. How is temperature measured?

- 29. What unit is used to measure temperature?
- 30. What unit is used to measure rainfall?
- 31. What unit is used to measure wind speed?
- 32. Who is a meteorologist?
- 33. What is a climate scientist called?
- 34. What is the role of satellites in weather study?
- 35. How does a weather radar work?
- 36. What is cloud seeding?
- 37. What is a weather map?
- 38. What symbols are used on a weather map?
- 39. What is weather forecasting?
- 40. How accurate are weather forecasts?

## Types of Weather and Seasons (41–60)

- 41. What is sunny weather?
- 42. What is cloudy weather?
- 43. What is rainy weather?
- 44. What is stormy weather?
- 45. What is fog?
- 46. What is dew?
- 47. What is snow?
- 48. What is hail?

- 49. What is thunder and lightning?50. What is a cyclone?
- 51. What is a tornado?
- 52. What is a heatwave?
- 53. What is a cold wave?
- 54. What is a drought?
- 55. What is a flood?
- 56. What is a dust storm?
- 57. What is a hurricane?
- 58. What is a tsunami and is it related to weather?
- 59. What are the four main seasons?
- 60. How does weather affect our daily life?

## Climate Zones & Global Patterns (61–80)

- 61. What are climate zones?
- 62. Name the three main climate zones.
- 63. What is the tropical zone?
- 64. What is the temperate zone?
- 65. What is the polar zone?
- 66. What is the equator's climate like?
- 67. How is climate at the poles?
- 68. What is the difference between tropical and temperate climates?

- 69. What type of climate does India have?
- 70. What is a desert climate?
- 71. What is a monsoon?
- 72. What is an arid climate?
- 73. What is a humid climate?
- 74. What is a continental climate?
- 75. What is maritime climate?
- 76. How does altitude affect climate?
- 77. How does distance from sea affect climate?
- 78. How do mountains affect climate?
- 79. What is a microclimate?
- 80. Why are cities warmer than villages?

## Climate Change and Impact (81–100)

- 81. What is climate change?
- 82. What causes climate change?
- 83. What is global warming?
- 84. What are greenhouse gases?
- 85. What is the greenhouse effect?
- 86. How does pollution affect climate?
- 87. How do human activities change the climate?
- 88. What are the effects of global warming?

- 89. What is deforestation and how does it affect climate?
- 90. How does climate change affect animals?
- 91. How does climate change affect agriculture?
- 92. What is the role of forests in climate control?
- 93. What can we do to stop climate change?
- 94. What is carbon footprint?
- 95. What is renewable energy?
- 96. How can planting trees help the climate?
- 97. What is the Paris Agreement?
- 98. What is sustainable living?
- 99. Why is it important to learn about climate?
- 100. What is the future of Earth if climate change continues?

# **Nature Resources**

Here are the **Top 100 General Knowledge Questions on "Natural Resources"**, suitable for Grades 3–8, competitive exams, environmental studies, and classroom activities.

These questions cover types of resources, examples, conservation, uses, and environmental importance.

## Top 100 Questions on Natural Resources

- Introduction to Natural Resources (1–20)
  - 1. What are natural resources?
  - 2. Name any five natural resources.
  - 3. What are the two main types of natural resources?
  - 4. What are renewable resources?
  - 5. What are non-renewable resources?
  - 6. Give two examples of renewable resources.
  - 7. Give two examples of non-renewable resources.
  - 8. What is the importance of natural resources?
  - 9. How do natural resources support life on Earth?
  - 10. Are all natural resources unlimited?
  - 11. Why should we conserve natural resources?
  - 12. What happens if natural resources are overused?
  - 13. What is meant by resource conservation?
  - 14. Name a natural resource used for energy.
  - 15. How are natural resources formed?
  - 16. What is the role of natural resources in development?
  - 17. What is the difference between man-made and natural resources?

- 18. Name two natural resources used for transport.
- 19. Name two natural resources used in farming.
- 20. What is sustainable use of natural resources?

#### **♦ Water Resources (21–40)**

- 21. Is water a renewable resource?
- 22. What are the main sources of water?
- 23. Name three uses of water in daily life.
- 24. What is rainwater harvesting?
- 25. What causes water pollution?
- 26. How can we conserve water at home?
- 27. What is groundwater?
- 28. Why are rivers important natural resources?
- 29. How do dams help store water?
- 30. What is a watershed?
- 31. What is clean drinking water?
- 32. Why is water essential for life?
- 33. How does water help in agriculture?
- 34. What is irrigation?
- 35. What are canals used for?
- 36. What is a reservoir?
- 37. Name two major rivers in India.

- 38. What is a monsoon?
- 39. What is a drought?
- 40. How can we save water during daily use?

#### **♀** Forest and Plant Resources (41–60)

- 41. What are forest resources?
- 42. Name products we get from forests.
- 43. What are the types of forests in India?
- 44. What is deforestation?
- 45. How does deforestation affect the environment?
- 46. What is afforestation?
- 47. Why should we plant more trees?
- 48. What is a forest reserve?
- 49. What is biodiversity?
- 50. What is a national park?
- 51. Name two forest-based industries.
- 52. How do forests prevent soil erosion?
- 53. How do forests help in maintaining climate?
- 54. Name any three trees used for timber.
- 55. What is medicinal plant resource?
- 56. Why are forests called "lungs of the Earth"?
- 57. What is a wildlife sanctuary?

- 58. How do forests support tribal communities?
- 59. What is a tree plantation drive?
- 60. Name one endangered forest animal.

#### Minerals, Fossil Fuels & Energy (61−80)

- 61. What are minerals?
- 62. Name two metallic minerals.
- 63. Name two non-metallic minerals.
- 64. What is coal?
- 65. Is coal a renewable or non-renewable resource?
- 66. What is petroleum?
- 67. How is petroleum used?
- 68. What is natural gas?
- 69. What is a fossil fuel?
- 70. Why are fossil fuels limited?
- 71. What is solar energy?
- 72. What is wind energy?
- 73. What is hydroelectric power?
- 74. What is geothermal energy?
- 75. What are biofuels?
- 76. Why is solar energy called a clean energy source?
- 77. What is nuclear energy?

- 78. Name a place where coal is mined in India.
- 79. How do we get electricity from water?
- 80. Why should we reduce the use of fossil fuels?

#### ✓ Soil and Land Resources (81–100)

- 81. What is soil?
- 82. How is soil formed?
- 83. What are the layers of soil?
- 84. Name types of soil found in India.
- 85. What is the best soil for growing crops?
- 86. What causes soil erosion?
- 87. How can we prevent soil erosion?
- 88. What is compost?
- 89. What is land degradation?
- 90. What is terrace farming?
- 91. What is organic farming?
- 92. Why is soil a vital resource for life?
- 93. What is land as a natural resource?
- 94. How is land used in rural and urban areas?
- 95. What is desertification?
- 96. How can land be used wisely?
- 97. What is the importance of soil conservation?

- 98. What is mulching in farming?
- 99. Name a crop that grows in black soil.
- 100. How can we teach children to care for natural resources?

# Water conservation

Here are the **Top 100 General Knowledge Questions on "Water Conservation"**, perfect for students (Grades 3–8), environmental studies, school projects, and quizzes. These questions cover **importance**, **methods**, **water sources**, **usage**, **problems**, **and solutions**.

# ♦ Top 100 Questions on Water Conservation

- Basics of Water and Its Importance (1–20)
  - 1. What is water conservation?
  - 2. Why is water important for life?
  - 3. What are the main uses of water in daily life?
  - 4. How much of the Earth is covered with water?
  - 5. What percentage of Earth's water is freshwater?

- 6. Can humans drink salt water?
- 7. What happens if we waste water?
- 8. How does water reach our homes?
- 9. Why is clean drinking water important?
- 10. Is water a renewable or non-renewable resource?
- 11. What are the main sources of water?
- 12. Name three freshwater sources.
- 13. What is surface water?
- 14. What is groundwater?
- 15. Why is groundwater important?
- 16. How do humans pollute water?
- 17. What is water scarcity?
- 18. Why is water called a precious resource?
- 19. Why should we not leave taps open?
- 20. What will happen if water runs out?

# Methods of Water Conservation (21–40)

- 21. What are simple ways to save water at home?
- 22. What is rainwater harvesting?
- 23. How does rainwater harvesting work?
- 24. What is drip irrigation?
- 25. What is sprinkler irrigation?

- 26. What is water recycling?
- 27. What is greywater and how can it be reused?
- 28. How can we save water in the bathroom?
- 29. How can we save water in the kitchen?
- 30. What is a water-saving tap?
- 31. How can children save water at school?
- 32. What is water budgeting?
- 33. What is rooftop harvesting?
- 34. What is mulching and how does it help conserve water?
- 35. How can fixing leaks save water?
- 36. What is the importance of water meters?
- 37. Why should we wash cars using buckets, not hoses?
- 38. What is a water-wise garden?
- 39. What is the best time to water plants?
- 40. How can rain gardens help save water?

## Nater Crisis and Global Impact (41–60)

- 41. What is the global water crisis?
- 42. Name a country suffering from water shortage.
- 43. How does climate change affect water?
- 44. What are droughts and how do they affect water supply?
- 45. What is overuse of groundwater?

- 46. What is desertification?
- 47. What is the Day Zero concept?
- 48. How do growing populations increase water demand?
- 49. Why are rivers drying up?
- 50. How do deforestation and water shortage relate?
- 51. What happens during water conflicts between countries?
- 52. What is the effect of water scarcity on farming?
- 53. How does water pollution affect drinking water?
- 54. What is eutrophication?
- 55. What is the impact of industrial waste on rivers?
- 56. What is the role of wetlands in water conservation?
- 57. Why is clean water a human right?
- 58. What is the Sustainable Development Goal related to water?
- 59. What is the importance of World Water Day?
- 60. When is World Water Day celebrated?

#### Awareness & Action (61–80)

- 61. What can children do to conserve water?
- 62. What can schools do to promote water conservation?
- 63. What role do community programs play in saving water?
- 64. Why should we teach water conservation in schools?
- 65. What is a water audit?

- 66. How can posters promote water saving?
- 67. What are water-saving slogans?
- 68. What is a "water footprint"?
- 69. What are the 3Rs in water conservation?
- 70. What is the water conservation message from "Jal Shakti Abhiyan"?
- 71. What is "Catch the Rain" campaign?
- 72. How can we encourage others to save water?
- 73. Name two water-saving technologies.
- 74. How do traditional methods help in water conservation?
- 75. What is a water-efficient toilet?
- 76. What are bioswales and how do they help conserve water?
- 77. What is an eco-friendly water filter?
- 78. How does community rainwater storage work?
- 79. What are smart irrigation systems?
- 80. Why should industries treat water before releasing it?

## Science, Nature & Water Cycle (81–100)

- 81. What is the water cycle?
- 82. What are the main stages of the water cycle?
- 83. How does evaporation help conserve water naturally?
- 84. What is condensation?
- 85. What is precipitation?

- 86. What is infiltration?
- 87. What is groundwater recharge?
- 88. What is transpiration?
- 89. How do forests help in conserving water?
- 90. How do wetlands filter water?
- 91. How do trees maintain the water table?
- 92. Why are mangroves important for water?
- 93. What is a watershed?
- 94. How does soil type affect water conservation?
- 95. What role do rivers play in water storage?
- 96. How do aquifers store water?
- 97. What is a glacier and how does it supply water?
- 98. What is desalination?
- 99. Why is protecting lakes important for water security?
- 100. Why should we consider every drop of water valuable?

#### Would you like this as:

- A PDF worksheet
- ? A multiple-choice quiz with answers
- With illustrations and charts on water-saving tips

# Types of soil

Here are the Top 100 General Knowledge Questions on "Types of Soil", suitable for students (Grades 3–8), teachers, quizzes, and environmental awareness. These questions cover soil types, properties, formation, uses, conservation, and more.

# Y Top 100 Questions on Types of Soil

#### Basics of Soil (1-20)

- 1. What is soil?
- 2. How is soil formed?
- 3. What are the main components of soil?
- 4. Why is soil important for plants?
- 5. What are the layers of soil?
- 6. What is topsoil?
- 7. What is subsoil?
- 8. What is bedrock?
- 9. What is humus?
- 10. What are the main types of soil?
- 11. How many types of soil are found in India?
- 12. What is soil texture?
- 13. What is soil fertility?
- 14. What is soil erosion?
- 15. What is the role of soil in agriculture?

- 16. What is meant by loamy soil?
- 17. Which layer of soil is richest in nutrients?
- 18. What is meant by porous soil?
- 19. How can soil be tested?
- 20. What are the uses of soil?

#### Types of Soil – Indian Context (21–40)

- 21. What is alluvial soil?
- 22. Where is alluvial soil found in India?
- 23. What crops grow best in alluvial soil?
- 24. What is black soil?
- 25. Which region in India has black soil?
- 26. What crops grow well in black soil?
- 27. What is red soil?
- 28. In which states is red soil found?
- 29. What are the characteristics of red soil?
- 30. What is laterite soil?
- 31. Where is laterite soil found in India?
- 32. What crops are suitable for laterite soil?
- 33. What is desert soil?
- 34. Where is desert soil found in India?
- 35. What grows in desert soil?

- 36. What is mountain soil?
- 37. Where is mountain soil found?
- 38. What is saline soil?
- 39. Where is saline soil found?
- 40. How does each soil differ in color and texture?

#### Soil Properties & Characteristics (41–60)

- 41. What makes soil fertile?
- 42. What is the pH of soil?
- 43. Why is black soil sticky in nature?
- 44. Which soil has the best water retention?
- 45. Which soil drains water quickly?
- 46. Which soil is best for cotton farming?
- 47. Why is red soil red in color?
- 48. Why is alluvial soil considered very fertile?
- 49. What minerals are found in laterite soil?
- 50. Why is loamy soil good for gardening?
- 51. What is sandy soil?
- 52. What are the uses of sandy soil?
- 53. What is clayey soil?
- 54. What crops grow well in clayey soil?
- 55. Which soil has larger particles: clayey or sandy?

- 56. What is the water-holding capacity of loamy soil?
- 57. How is the texture of red soil different from black soil?
- 58. Which soil is rich in iron content?
- 59. What is the color of saline soil?
- 60. Which type of soil supports tea and coffee plantations?

#### Soil and Crops (61-80)

- 61. Which soil is best for growing rice?
- 62. Which crops grow in laterite soil?
- 63. What crops grow in sandy soil?
- 64. Which soil supports wheat farming?
- 65. Can you grow sugarcane in red soil?
- 66. Which soil is best for pulses and oilseeds?
- 67. What type of soil is ideal for banana and citrus fruits?
- 68. What is organic soil?
- 69. What is the role of manure in soil health?
- 70. What fertilizers improve soil fertility?
- 71. What are cover crops?
- 72. What is crop rotation and how does it benefit soil?
- 73. How do legumes improve soil quality?
- 74. Why are earthworms called "friends of farmers"?
- 75. What is compost and how is it added to soil?

- 76. What is green manure?
- 77. What are micronutrients in soil?
- 78. What soil is used in organic farming?
- 79. How do farmers test soil health?
- 80. What is soil salinity and how does it affect crops?

# Soil Conservation and Environmental Role (81–100)

- 81. What is soil erosion?
- 82. What are the causes of soil erosion?
- 83. How can soil erosion be prevented?
- 84. What is afforestation?
- 85. What is contour ploughing?
- 86. What is terrace farming?
- 87. What are bunds and how do they help?
- 88. What is mulching?
- 89. How do grasses help hold soil?
- 90. What is land degradation?
- 91. What is overgrazing and how does it harm soil?
- 92. How do floods affect soil?
- 93. What is desertification?
- 94. What is soil pollution?
- 95. How can we protect soil in cities?

- 96. What is sustainable soil use?
- 97. Why is soil conservation important?
- 98. How can schools promote soil awareness?
- 99. What is the role of soil in the ecosystem?
- 100. How can individuals help conserve soil?

#### Would you like this content:

- As a printable PDF worksheet
- ? As an MCQ quiz with answer key
- With images of different soil types and maps of India

# Air and its importance

Here are the Top 100 General Knowledge Questions on "Air and Its Importance", ideal for Grades 3–8, school projects, environmental science, and guiz competitions. These questions cover air composition, properties, uses, pollution, and conservation.

### **Top 100 Questions on Air and Its Importance**

- Basics of Air (1-20)
  - 1. What is air?
  - 2. Is air visible?
  - 3. Does air have weight?

- 4. Can air occupy space?
- 5. How do we know air is around us?
- 6. What are the main components of air?
- 7. Which gas in air is used for breathing?
- 8. Which gas in air is used by plants?
- 9. What percentage of oxygen is in the air?
- 10. What percentage of nitrogen is in the air?
- 11. What is carbon dioxide?
- 12. What is water vapor in air?
- 13. What is the role of air in photosynthesis?
- 14. How does air support burning?
- 15. Is air present everywhere?
- 16. Can we live without air?
- 17. How does air move?
- 18. What is wind?
- 19. What causes wind to blow?
- 20. What is breeze?

# Properties of Air (21–40)

- 21. What are the physical properties of air?
- 22. Does air have mass?
- 23. Can air be compressed?

- 24. Is air a mixture or a compound?
- 25. What is air pressure?
- 26. How is air pressure measured?
- 27. What happens to air when it is heated?
- 28. What happens to air when it is cooled?
- 29. Can air carry sound?
- 30. How does air help in flying kites?
- 31. What is moving air called?
- 32. What is the difference between breeze and storm?
- 33. What is the density of air?
- 34. Why do mountain areas have less oxygen?
- 35. What is vacuum?
- 36. Can air dissolve in water?
- 37. What is the role of air in weather?
- 38. How does air affect climate?
- 39. How does air help clouds form?
- 40. How does air affect evaporation?

# Uses of Air in Daily Life (41–60)

- 41. Why do humans need air?
- 42. Why do animals need air?
- 43. How do plants use air?

- 44. How is air used in breathing?
- 45. How is air used in burning fuel?
- 46. How is air used in drying clothes?
- 47. How is air used in windmills?
- 48. How is air used in sailing?
- 49. How is air used in flying airplanes?
- 50. What is compressed air used for?
- 51. How is air used in air pumps?
- 52. Why do tyres need air?
- 53. How is air used in air conditioners?
- 54. How is air used in hot air balloons?
- 55. How do musical instruments use air?
- 56. What is air pollution?
- 57. What causes air pollution?
- 58. Name three human activities that pollute air.
- 59. How can we reduce air pollution?
- 60. How does clean air help in healthy living?

# Air and the Environment (61–80)

- 61. What is the atmosphere?
- 62. How many layers does the atmosphere have?
- 63. Name the layers of the atmosphere.

- 64. What is the troposphere?
- 65. Where does weather occur?
- 66. What is the ozone layer?
- 67. Why is the ozone layer important?
- 68. What causes damage to the ozone layer?
- 69. How does air protect us from meteors?
- 70. How does the atmosphere keep Earth warm?
- 71. What is greenhouse effect?
- 72. How does carbon dioxide affect the climate?
- 73. What are CFCs and how do they harm air?
- 74. What is smog?
- 75. What is acid rain and how is it caused?
- 76. What is global warming?
- 77. What is climate change?
- 78. What is the Air Quality Index (AQI)?
- 79. What is considered clean air (AQI value)?
- 80. Why should we plant trees to purify air?

# Air Conservation & Awareness (81–100)

- 81. How can we protect air quality?
- 82. How does riding a bicycle help save air?
- 83. How do electric vehicles reduce air pollution?

- 84. Why should we reduce burning waste?
- 85. How do factories affect air?
- 86. What is vehicular pollution?
- 87. What is industrial pollution?
- 88. What role do trees play in cleaning air?
- 89. What are green belts in cities?
- 90. Why should we reduce fossil fuel use?
- 91. What is afforestation?
- 92. How can schools promote clean air practices?
- 93. What is a clean air campaign?
- 94. What are eco-friendly fuels?
- 95. What are air purifiers?
- 96. How does indoor air pollution affect us?
- 97. What is a chimney filter?
- 98. What is stubble burning and its effect on air?
- 99. Why is air a shared global resource?
- 100. What can you do every day to protect clean air?

#### Would you like this content as:

- A printable worksheet or PDF
- ? An MCQ quiz with answer key
- An illustrated version with air cycle diagrams

# **Natural Disasters**

Here are the Top 100 General Knowledge Questions on "Natural Disasters", suitable for students (Grades 3-8), teachers, competitive quizzes, and environmental awareness. These questions cover types, causes, effects, safety tips, and disaster management.

# Top 100 Questions on Natural Disasters

- Introduction to Natural Disasters (1–20)
  - 1. What is a natural disaster?
  - 2. Name five common natural disasters.
  - 3. What is the difference between a natural and man-made disaster?
  - 4. What causes natural disasters?
  - 5. How do natural disasters affect people?
  - 6. Can natural disasters be predicted?
  - 7. What is disaster management?
  - 8. What is disaster preparedness?
  - 9. Why is disaster awareness important?
  - 10. Who helps during a natural disaster?
  - 11. What is a rescue operation?
