# About Us

## About Us

Hi there! We're Joel and Melanie Gazaway, the husband-and-wife duo behind this family-owned welding company. Our journey started in Joel's driveway. As a skilled welder with deep roots in Santee, Joel worked nights and weekends on the business after his union construction job before taking it on full-time. Like any small business owner, the beginning was challenging, but Joel's dedication and hard work shaped the company into what it is today.

Melanie keeps things running smoothly in the office. With a background in business administration and fluency in both English and Spanish, she's an invaluable part of the team. Originally from Mexico and raised in Santa Barbara, Melanie moved to San Diego after marrying Joel. Her friendly approach and expertise make a significant difference in everything they do.

As a young, motivated couple, we're committed to growing our business and providing exceptional welding services. We'd love the chance to work with you and show you what we can do. Thanks for considering us!

## Mission

Our mission is to offer exceptional welding services that are customized to your unique needs and vision. We're dedicated to bringing our best to every project, ensuring top-quality results and your complete satisfaction with our work.

## Vision

Our vision is to be San Diego's go-to for mobile welding, where every project gets the special touch of a family-owned business. We're passionate about turning your ideas into amazing metalworks and always aim to bring a personal, caring approach to our work. We want to build lasting relationships with our community while crafting quality solutions that truly fit your needs.

# Our Services

## Mobile Welding

Equipped with the latest technology and staffed by skilled professionals, we handle everything from repairs and maintenance to fabrication and custom projects. Whether you're at a construction site, an industrial facility, a commercial building, or even at home, we come to you. Our mobile services save you time and money by cutting out the hassle of transportation and reducing downtime.

## Custom Fabrications

When it comes to custom fabrications, we've got you covered. Whether you're working on a new property or remodeling an existing one, our expertise ensures your project is done right. We create everything from modern pool fencing and stylish pedestrian gates to sturdy handrails and practical storage lockers—all tailored to your vision and up to code. Our focus is on delivering custom solutions that not only meet regulatory standards but also align with your personal style and needs.
