

AL100 / AL100HD

TRUE BLUE OUTSIDE LIFT YOU CAN COUNT ON

A DURABLE POWERHOUSE

The AL100 & AL100HD are durable lifts with weight capacities of 350 lb and 400 lb respectively. The AL100HD is the heavy lifter and is the only scooter lift with a 400 lb weight capacity on the market. Thanks to a durable aluminum platform, thoughtful engineering, and effortless operation, these lifts endure the tests of both time and weather. These attributes make these universal scooter lifts the most popular solution on the market. Its unique automatic hold-down foot secures the scooter. It requires no scooter modifications.

We design our lifts with you in mind. Offering more customized platform sizes that are 15 to 25% lighter than others, which means you save money on fuel.

EASY CARGO ACCESS

Our lightweight swing-away has an innovative design using an I-beam construction, resulting in a lighter accessory that provides you with greater handling and steering.

Toggle switch to raise and lower the platform with ease.

Automatic hold-down foot secures your scooter.

Rear wheel cradle, prevents the scooter from moving around.

Harmar's patriotic Stars-N-Stripes platforms are engineered for maximum strength.

I've had my AL100 for years. It's true BLUE, easy to use, and stands up against the harshest of climates.
