LOOKINGGLASS

EXECUTIVE SECURITY

Ensure the Safety of High-Profile Executives with 24x7 Detection and Monitoring

The LookingGlass Executive Security offering helps security professionals detect and assess threats to their executives and high profile employees. Our real-time threat alerts provide threat intelligence from a wide range of global online sources for advance indications and warnings of Internet threats.

The Executive Security Offering includes:

- **In-depth, Customizable Reports:** Deep-dive reports examining both protected individual's online exposure and any current or recent online activity from persons of interest.

- **Imposter Social Media Accounts:** Identify imposter accounts on top social media platforms that feature the executive or high-profile individual in the page URL or title.

- **Investigations:** Specialized analysts produce threat assessments for executive travel, person of interest profiles, content analysis, social network mapping, and a variety of ad hoc research.

- **Response and Mitigation Services:** Remove content and account shutdown/recovery. This can include removing impersonation or "spoof" accounts and posts that contain sensitive or personal information.

## EXECUTIVE SECURITY OFFERING

Physical Threats
Online postings that threaten or incite others to take harmful action directly against individuals.

Information Threats
Malicious postings of personal information and inadvertent disclosures by the individual online and via social media, which can rapidly spread sensitive data.

Persons of Interest
Community of actors that target organizations and individuals for criminal, political and even social and religious reasons.

FEATURES	BENEFITS
24x7 Detection and Monitoring	• Always-on coverage of physical and digital threats being made on major social networking sites.
Expert Analysts	• Best-of-breed security analysts providing a human review of all alerts to ensure delivery of only relevant findings. • Tailored briefings that bring an additional level of knowledge and insight.
Daily Intelligence Briefings	• In-depth source coverage focused on context and supplemental information specific to threat, post, or specific person of interest.
Threat Alerts	• Near real-time alerts of all relevant findings.

ABOUT LOOKINGGLASS
CYBER SOLUTIONS

LookingGlass Cyber Solutions delivers unified threat protection against sophisticated cyber attacks to global enterprises and government agencies by operationalizing threat intelligence across its end-to-end portfolio. Scalable threat intelligence platforms and network-based threat response products consume our machine-readable data feeds to provide comprehensive threat-driven security. Augmenting the solutions portfolio is a worldwide team of security analysts who continuously enrich our data feeds and provide customers unprecedented understanding and response capability into cyber, physical and 3rd party risks. Prioritized, relevant and timely insights enable customers to take action on threat intelligence across the different stages of the attack life cycle.
