

THE OUTRIDER – Out of the Void

04 - Shadows of the Past

The visions in my mind, of places left in time, they call my name, they call my name
I've been trying to forget, to start over again, as I look the other way, I see you there
Jammin' in your brother's spare room, as we were chasing the groove
I cant keep my eyes, from falling on you
Dancing in the streets, with that kick drum beat driving so deep, its singing our theme

Thinking over the time we had, and about how these things don't
always work out the way you want

Living in the shadows of the past, Living in the shadows of the past
Living in the shadows of the past, Living in the shadows of the past

I waited for your face to appear, I strained my eyes and both ears
It was clear to me, that your not here
I asked you where you had been, you said working for the factory
Because we all need, the things that we need

We used to talk all night, all about our lives
As the silver light, it shone in our eyes
If you no longer dream that dream, run with the way you feel
Its easy to see, that the joke is on me

Living in the shadows of the past, Living in the shadows of the past

I miss you so, I keep searching

THE OUTRIDER – Out of the Void

And I keep looking for the answers in rhyme, like a fruit of the vine

In a secret place, between two lines

Reading from the book of life, I guess you had to leave

To find the things you need, and to be free

I have felt the winds of change, blowing over the land

Where we walked alone, among the shadows of the past

Do you remember these times, excitements in the air

And if you change your mind, I'll meet you there

Thinking over the time we had, and about how these things don't

always work out the way you want

Living in the shadows of the past, Living in the shadows of the past

As I look into those familiar eyes, all I see is the past

Dancing with those visions... in my mind

Living in the shadows of the past, Living in the shadows of the past

Living in the shadows of the past, Living in the shadows of the past
