

THE OUTRIDER – Out of the Void

05 - Ol' Dear John Song

It ain't right, there's something wrong, I need to see you before too long
Because today there were things, that never should have been said
So I went up and I went down, to see if my baby had been around
But she has run into the night, singing that Ol' Dear John Song

Caught up with her, was late one night, said she was leaving to end her life
I was as though she'd worked it out, and played it out in finest detail
What can you say, what can you do, about those crazy things inside of you
You've taken all there is to give, by singing that Ol' Dear John Song
