Woman

what with so many borders, continents, languages, translations and understandings of creative reappropriation, of course you can re-art the colors, words, images and feelings of heart brain heart soul any way you like | as your newest vision will also truly become another world saving loving Good that me cannot afford to miss |

His primary mission for us which could be to eventually hold hands with every life form on earth and beyond through the joyful eternal development of a generous, artful, mindful and soulful creative collaboration on love and peace |

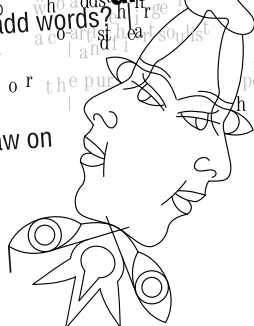

of reproduction

so to me, appropriation is flattering in its suggestion that another might use some of my line to create their own fine art |

beautiful embellishings.

how to interest others in adding their own creative Goods? | some might could write enhanced thoughts, in their own hand, between the waves on seas of golden rules | for images, one could just draw on any extras that make their heart sing | or trace happy visions through the grin of sunny window glass that also make themselves smile? |
