

Pure Multifloral Honey from the Heart of Argentina

Crafted by Nature. Guided by Tradition.

Our multifloral honey is a true expression of Argentina's natural richness, harvested from diverse floral regions across the country. Each drop reflects the unique character of its origin—from the clover, alfalfa, and sunflower fields of La Pampa, to the wild mistol and carob trees of Córdoba, and the fragrant citrus blossoms of Salta.

What makes our honey special?

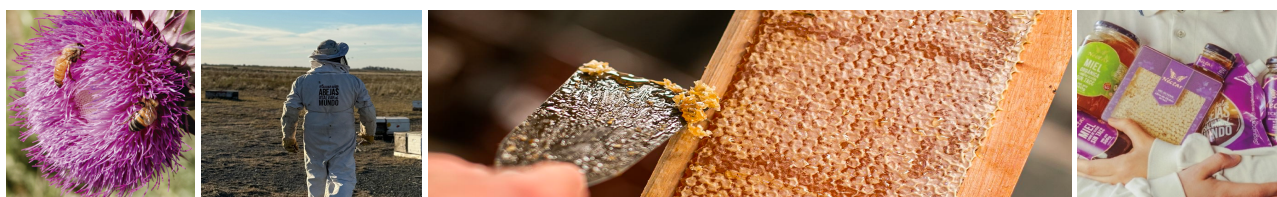

We follow a transhumant beekeeping system that moves in harmony with nature. The cycle begins in June, when we transport our hives from La Pampa to Salta for seasonal preparation: queen renewal, nucleus formation, and general conditioning. In September, the hives are moved to Córdoba, also home to our certified organic farm. Harvesting begins in November, and the collected honey is taken to our extraction plant in La Pampa. The hives are then redistributed throughout the province for the final summer honey flow.

We have our own queen breeding program and an integrated logistics system that allows us to safely and efficiently move over 7,000 hives each year.

Harvest concludes in January, and the hives enter a resting phase—ready to begin a new natural cycle.

We proudly produce under strict Argentine and international standards: SENASA, GMP, INTI, HACCP, HALAL, and KOSHER.

All our products are shipped directly from certified storage and packaging facilities to domestic and international markets, **ensuring traceability, freshness, and excellence**—from hive to home.

Product List & Packaging

JAR	
Capacity	28g
Unit per box	80
Total Boxes per pallet	96
Assembled pallet weight	656kg

Raw Honey (M)	
Capacity	500g
Unit per box	9
Total Boxes per pallet	120
Assembled pallet weight	810kg

Raw Honey (L)	
Capacity	910g
Unit per box	6
Total Boxes per pallet	64
Assembled pallet weight	657kg

Whipped Honey	
Capacity	500g
Unit per box	9
Total Boxes per pallet	120
Assembled pallet weight	810kg

Organic Honey	
Capacity	500g
Unit per box	9
Total Boxes per pallet	120
Assembled pallet weight	

Jug (M)	
Capacity	500g
Unit per box	8
Total Boxes per pallet	120
Assembled pallet weight	740kg

Doypack (S)	
Capacity	150g
Unit per box	24
Total Boxes per pallet	96
Assembled pallet weight	353kg

Doypack (M)	
Capacity	250g
Unit per box	12
Total Boxes per pallet	120
Assembled pallet weight	402kg

Doypack (L)	
Capacity	500g
Unit per box	12
Total Boxes per pallet	80
Assembled pallet weight	525kg

Honeycomb (L)	
Capacity	340g
Unit per box	12
Total Boxes per pallet	96
Assembled pallet weight	454kg

Honeycomb (S)	
Capacity	170g
Unit per box	16
Total Boxes per pallet	160
Assembled pallet weight	579kg

Honeycomb (XL)	
Capacity	1.5kg
Unit per box	5
Total Boxes per pallet	60
Assembled pallet weight	480kg

Stick x 20	
Capacity	15g
Unit per box	10
Total Boxes per pallet	80
Assembled pallet weight	305kg

Drum	
Capacity	2.27kg
Unit per box	6
Total Boxes per pallet	45
Assembled pallet weight	

Bucket (S)	
Capacity	5.5kg
Unit per box	1
Total Boxes per pallet	80
Assembled pallet weight	

Bucket (M)	
Capacity	14kg
Unit per box	1
Total Boxes per pallet	72
Assembled pallet weight	

Bucket (L)	
Capacity	28kg
Unit per box	1
Total Boxes per pallet	24
Assembled pallet weight
