

WHY SHOULD YOU SEPARATE & PACK OUT TRASH?

- WHEN FOOD & SOILED PAPER END UP IN LANDFILLS, THEY CREATE HARMFUL GASES THAT CONTRIBUTE TO POOR AIR QUALITY & CLIMATE CHANGE
- RECYCLABLE MATERIALS CAN BE RECOVERED FOR MONEY BY INDEPENDENT RECYCLERS AND ARE MORE LIKELY TO BE RECYCLED WHEN CLEAN.
- SORTERS FACE DANGERS WHEN OPENING BAGS. "MYSTERY BAGS" USUALLY END UP IN LANDFILL
- LANDFILLS POSE DANGERS TO HEALTH- FROM THE WATER WE DRINK, TO THE AIR WE BREATHE AND THE EARTH WE INTERACT WITH
- SB 1383 IS A STATE LAW REQUIRING WASTE HAULERS TO LOWER THE AMOUNT OF "TRASH" SENT TO LANDFILLS. ALL BUSINESSES & RESIDENTS IN CALIFORNIA SHOULD HAVE **COMPOST/LANDFILL/RECYCLE** BINS AS OF JANUARY 2023.
- SEPARATING TRASH HELPS KEEP WASTE HAULER COSTS DOWN (LOWER TRASH BILLS)

COMPOST CAN EASILY GO BACK TO NATURE
FOOD, FOOD SCRAPS, PLANT CUTTINGS AND WET/SOILED
PAPER (NO PAINTS) CAN BE PACKED IN A BUCKET WITH A
SECURE LID & CONTENTS EMPTIED IN HOME/WORK
ORGANICS (GREEN) BIN OR DUMPSTER

LANDFILL MADE OF WEIRD STUFF
SOFT PLASTICS LIKE FOOD WRAPPING, GLOVES, WIPES &
BAGS AS WELL AS STYROFOAM, HEAVILY SOILED PLASTICS,
AND ITEMS MADE OF MULTIPLE MATERIALS (LIKE MARKERS OR
PAINTED ITEMS) SHOULD BE BAGGED & PLACED IN
HOME/WORK LANDFILL (TRASH) BIN OR DUMPSTER

RECYCLING METAL, HARD PLASTIC, PAPER—BASICALLY
DRY, EMPTY JUGS, CARTONS, CANS AND BOTTLES; BALLED
FOIL & TRAYS; DRY, CLEAN, FLATTENED CARDBOARD AND
PAPER CAN BE PLACED IN A BOX AND EMPTIED IN
HOME/WORK **RECYCLING BIN OR DUMPSTER**
