

Ukraine Relief Project
Aquidneck

A Solar Powered Lantern with Charger for Electronics
has been donated in your name
to a family living without electricity in a war-torn region of Ukraine

Children will now be able to see on long, dark evenings to do schoolwork on charged electronic devices.

Families will be able to light dark homes.

Thank you!

Our parent organization, The Jamestown Ukraine Relief Project (JURP), is proud to be an initiating participant in SunLight Ukraine, a project in implementation with the Charter for Compassion. Both JURP and the Charter for Compassion are recognized 501(c)3 nonprofit organizations.
