

Established in 2009 as a specialised cyber security group, we focus on delivering professional and managed services from our Security Operation Centre and client sites.

**TRUSTED ADVISORS EXPERIENCED PROFESSIONALS TALENTED INNOVATORS** 

## Gain visibility into your externally visible hygiene

In information security, a business can only improve its business resilience posture when it fully understands the current risk posture. Our experienced team, coupled with the market leading technology from Hardenize, deliver actionable results in three service levels to suit organisation of any size and complexity.
