

ROAST DESCRIPTIONS

Midnight Express: Unique blend of Central and South American Arabica beans. It presents notes of citrus, chocolate, and hints of golden raisin. The name reflects its high caffeine content and will appeal to those seeking an extra caffeine boost.

Mossy Creek Select Blend: Contains 9 different coffee beans in one roast. This medium/dark espresso roast blend packs a caffeine punch, has a rich flavor, and is our most popular blend.

Choo Choo Supremo: Made from a Colombian bean. This medium/dark espresso roast has a hint of tart fruit flavor and finishes with a dark cocoa taste.

Conductor: Made from a Mexican Chiapas organic bean. This roast has a slight nutty flavor, smells delicious, and finishes with a crisp taste.

Whistle Stop: Made from equal halves of our signature decaf and Conductor roasts. This blend is perfect for those who are looking for great flavor and a hint of caffeine.

Brakeman: A Brazilian bean native to the Sul de Minas region. We developed a unique profile that produces a coffee that has well-rounded acidity, good body, pleasant sweetness, good complexity, and nutty characteristics with hints of chocolate notes.

Boxcar Unloaded Organic DECAF- A medium roast that is a blend of South and Central America beans decaffeinated using the Swiss Water Process. This roast has a balanced taste of citrus and milk chocolate without the decaf taste and free of chemicals.

S&S Locomotive: Dark roasted - single origin Caranavi from Bolivia. Grown at elevations rising to 8,500 feet above sea level, this coffee is well balanced, but with a heavy body. The S&S Locomotive is the "smoothest" most versatile (cold brew, drip, and or espresso) dark roasted coffee we carry.

Mossy Creek Mud: Super Dark roasted coffee made from certified organic Mexican Chiapas beans. This coffee has been profiled to be our "Darkest" (Italian) roast characterized by a robust, bold flavor with deep caramelization and pronounced smokiness. If you enjoy a coffee that has a "bite" this one is for you!

LIGHT TO MEDIUM ROAST

MEDIUM TO DARK ROAST

WE ROAST OUR OWN COFFEE IN HOUSE USING BEANS FROM AROUND THE WORLD. WE CURRENTLY HAVE 9 ROASTS THAT WE OFFER IN WHOLE BEAN, GROUND, AND K-CUPS.
