ADVANTAGES

Miller's Poly-Wood Furniture: The Advantages of Exclusive Custom-Made Heavy-Duty Construction

When it comes to furnishing your outdoor spaces, durability and longevity are key factors to consider. Miller's Poly-Furniture understands the importance of investing in high-quality furniture that can withstand heavy use and the elements. Our “exclusive” custom-made heavy-duty construction ensures that our products are built to last, providing unparalleled strength, stability, and convenience.

Ideal for Both Personal and Commercial Use:

Our heavy-duty construction techniques and materials are specifically designed to withstand heavy items and years of use. With our exclusive custom-made and heavy-duty construction it makes Miller's Poly-Furniture suitable for both personal and commercial use. Whether you're furnishing a cozy backyard retreat or a bustling outdoor café, our furniture is built to handle the demands of any setting, our products offer unparalleled durability, functionality, Strength and Stability.

The Long-Lasting Nature of Folds, Stores & Weather Exposure:

One of the key advantages of Miller's Poly-Furniture is its long-lasting nature. When not in use, our furniture can be easily folded and stored, saving valuable space. Additionally, our products are designed to withstand various weather conditions, from intense heat and sunshine to heavy rain and snow. So, if you are limited on storage space, you can simply leave our furniture outside without worrying about damage or deterioration. Say goodbye to fading, cracking, and warping - with Miller's Poly-Furniture, your outdoor spaces will always look their best.

With Miller's Poly-Furniture, you can enjoy years of worry-free use, beauty and comfort!

GENERAL CLEANING

- Scrub boards with soap and water solution using a soft sponge or plastic-bristled brush.
- You can use a soft-bristled toothbrush to clean spaces that are hard to reach.
- To remove surface dust, just wash furniture with cold, clear water.

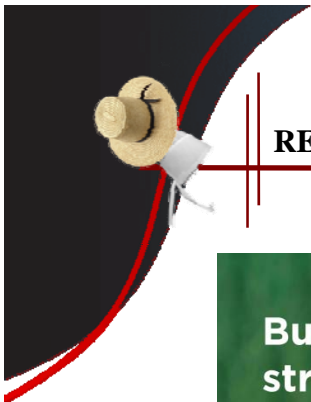

DEEP CLEANING

- A pressure washer can be used on the lightest setting to deep clean your furniture.
- It is not recommended to use more than 1,500psi.
- Keep the tip of the pressure washer at least 10-12 inches away from the furniture so it does not damage the lumber.

STAIN CHART

STAIN	RECOMMENDED CLEANING PROCESS
Pencil Marks	Use a mild dish detergent and water to saturate the stain. Rinse clean with water.
Ink/Marker	Use a mild dish detergent and water to saturate the stain. Rinse clean with water. For tougher stains, treat area with a penetrating oil. Wipe off and wash clean with water and a mild dish detergent.
Grease or Oil Stain	Use a mild dish detergent and water to saturate the stain. Rinse clean with water.
Embedded Dirt	Use a mild dish detergent to saturate the area. Scrub with a soft-bristled brush. Rinse clean with water.
Wine	Use a mild dish detergent to saturate the area. Scrub with a soft-bristled brush and rinse clean with water.
Chewing Gum	Coat penetrating oil over the area. Gently pry up on any hard pieces with a plastic putty knife. Utilize a soft brush and acetone solvent to remove any fine debris and clean out any crevasses. Rinse area clean with water.
Bird Droppings	Use a mild dish detergent to saturate the area. Scrub with a soft-bristled brush and rinse clean with water.
Stains and Scuffs	A foam eraser sponge may be used for stubborn marks.
Iron and Rust	For tough iron and rust stains, saturate with a heavy-duty rust remover and scrub with a soft-bristled brush.

Always read and follow the product manufacturers' specific instructions before using any cleaning product. Always wear approved safety glasses, gloves, face shield or goggles when operating cleaning equipment. If using alternative cleaning solutions than those outlined above, it is recommended to test the solution on an inconspicuous area of the lumber to make sure it does not harm the surface. For more information visit tangentmaterials.com.

RECYCLABLE

Build a stronger planet with Tangent materials.

Tangent® proudly manufactures recycled plastic boards using post-consumer and post-industrial HDPE plastic such as milk jugs and laundry detergent bottles.

In addition, we also use an environmentally-friendly, closed-loop process that produces minimal greenhouse gases. When you purchase products crafted with Tangent sustainable lumber, know that you're helping build a stronger planet.

Each year, Tangent diverts 15,000 tons of recycled HDPE plastic from the landfill. That's the equivalent of approximately **210 million plastic milk bottles** annually.
