

Comfy

Cosy Cow

Enhance welfare
and increase milk
production

Spoil your cows!

Ensuring the utmost comfort for your animals is your daily goal. A Comfy cow brush can help! It's a fact that cows greatly enjoy the sensation of being brushed by Comfy Cow brushes. Our reliable brushes are therefore in use for up to 18 hours a day on average.

Between 50 and 60 cows can use the Cosy Cow. By enhancing animal welfare, you simultaneously boost productivity and milk yield.

Cosy Cow

The Cosy Cow is characterised by its rocking motion, making the brush is great for brushing head, tail implant and back. Due to the rocking motion, cows even play with this brush, especially with their head.

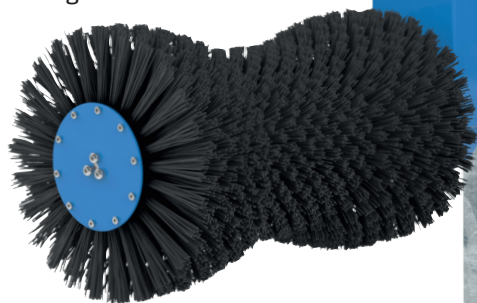

The Cosy Cow has a compact design and, thanks to the flow start system always starts in the correct direction of rotation, regardless of where the animal comes from. The Cosy Cow can turn either left or right, which prevents the bristles from standing in one direction. This ensures that the brush lasts longer.

Technical information

Brush frame dimensions	1200 x 820 x 390 mm
Brush diameter	390 mm
Brush length	612.5 mm
Power Supply Type/ Mains Current	110V 60Hz / 230V 50Hz
Power usage	0.12kWh
Weight	45 kg
Brush rotation speed	58 rpm
Movement	Rocking
Direction of rotation	Clockwise / anti-clockwise

Basic and Premium

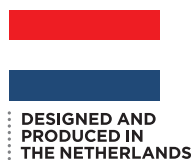

The Cosy Cow brush is not only available in the shown premium version, but also in a basic version. In that version, the brush is powered not by a motor, but by the animal itself. Our clever design allows the cow to rotate the brush in one direction by rubbing against it. Rotating backwards is blocked for optimum brushing effect.

LOW ENERGY CONSUMPTION

Due to our efficient 24V, 3 phase motor, Comfy brushes have a low energy consumption.

⚡ No load operation
0.04kWh

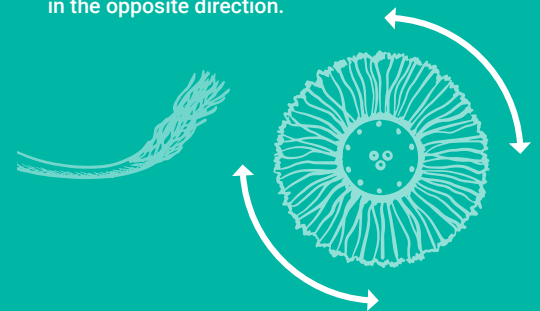

⚡ Normal load
0.12kWh

⚡ Maximum load
0.3kWh

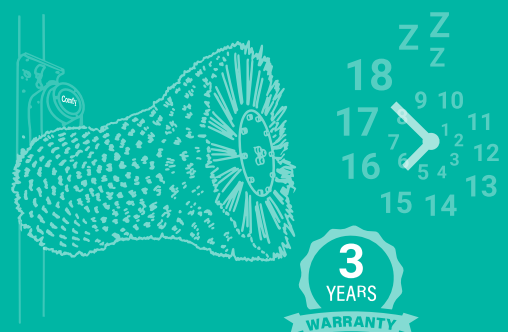

SAFE

Thanks to our overload protection system, the tail automatically detaches from the brush by rotating in the opposite direction.

RELIABLE

Our cow brushes run for 18 hours on an average day and they are supposed to do this year after year, without maintenance. We are so confident in our reliability that we offer a 3-year warranty.

EASY ASSEMBLY

Our brush is plug and play. The brush is relatively light (only 45kg) and is modular, which makes assembly much easier.
