

Shadow Tracker 4WD

FEATURES:

- Powered by multiple deep cycle marine batteries for extended run time under load. Great longevity on beach or off road.
- Capable of 25 mph, depending on weight load, terrain and incline.
- Supports jib arms and telescopic cranes up to 17' with an optional Crane Mount.
- Repositionable 3/8" aluminum cheese plate panels can be attached to any of the speed rail receivers to create step plates or platforms.
- Accommodates driver plus four crew members with repositionable seats.
- Adjustable air bag suspension maintains a level surface under load. Adjusted by an onboard switch.
- Twenty-eight 11/4" speed rail receivers located on top deck, sides, front and rear.
- Rear tow hitch receiver in back, plus complementary towing accessories.
- Ceramic Disc brakes for quick, quiet stopping.
