

Tracker XL 2WD

- Powered by multiple intrinsically safe lithium batteries for extended run time, a 200% increase over lead acid batteries.
- Capable of 35-45 mph, depending on weight load, terrain and incline.
- Supports jib arms and telescopic cranes up to 17' with the optional Crane Mount.
- Repositionable 3/8" aluminum cheese plate panels can be attached to any of the speed rail receivers to create step plates or platforms.
- Accommodates driver plus four crew members with repositionable seats.
- Adjustable air bag suspension maintains a level vehicle under load. Adjusted by an onboard switch.
- Sixteen 1-1/4" speed rail receivers located on the top deck, sides, front and rear.
- Rear tow hitch receiver in back, plus complementary towing accessories.
- Ceramic disc brakes for quick, quiet stopping.
