PERFORMANCE - CAPABILITIES

Regulatory & Compliance

Expert navigation through U.S. and international aviation regulations to keep you operational, compliant, and ahead of the curve.

- Aviation Safety & Regulatory Compliance – Ensuring operations meet all FAA and ICAO requirements.
- FAA Liaison, Engagement & Relationship Management – Direct coordination with FAA offices to resolve issues efficiently.
- Operator, Airman & Air Agency Certification – Streamlining the certification process to minimize delays.
- Aircraft Certification – Guidance from design approval through airworthiness.
- FAA International Aviation Safety Assessment (IASA) – Support for compliance with FAA oversight of foreign civil aviation authorities.
- ICAO Liaison & USOAP Assistance – Helping clients meet ICAO audit and compliance standards.
- International Engagement with Foreign Civil Aviation Authorities – Building productive relationships worldwide.

Emerging & Advanced Technologies

Helping innovators bring the next generation of aircraft and fuel solutions into service safely and efficiently.

- eVTOL, Powered-Lift & UAS Certification – Expertise in emerging aircraft categories and operational entry.
- Aviation Fuel Solutions – Advising on SAP, 100LL, and alternate fuel compliance and adoption.

Advocacy & Strategic Guidance

Shaping policy, securing resources, and supporting your aviation business objectives.

- Advocacy & Government Relations – Representing your interests before key agencies and lawmakers.
- FAA/Federal Procurement Guidance & Proposal Review – Enhancing your competitive edge in federal contracts.
- Aviation Investment Analysis & Use Cases – Identifying opportunities and maximizing ROI.

Leadership & Advisory Roles

Providing seasoned leadership and industry insight to strengthen aviation organizations.

- Advisory Board Member – Strategic input to guide business direction.
- Board of Director Member – Governance expertise to support organizational success.
