FWC staff has received over 100 requests for changes from the public, staff, and cooperators. Some of these ideas were proposals for changes to publications, policies, or other non-rulemaking issues. Staff has recommended 57 of the ideas for rule changes. The public has had an opportunity to submit comments to staff online, via email and phone.

Statewide Rule Changes

Spring Turkey Shooting Hours:

- Extend shooting hours during spring turkey season until sunset on most WMAs

Remove Archery Hunting Restrictions:

- Allow hunting with bows equipped with rangefinders and laser sights during archery season

Muzzleloading Gun Caliber:

- Change the caliber for hunting deer from a minimum of .40 to .30

Spring Turkey Shooting Hours (68A-15.004): Extend shooting hours during spring turkey seasons on WMAs from one-half hour before sunrise until sunset, unless otherwise provided by specific area regulation. This proposal comes after a 3-year pilot study where this change was made on 16 WMAs around the state. Hunting during these times is already allowed on private lands.

Remove Archery Hunting Restrictions (68A-12.002): Allow hunting for game or crows with bows equipped with electronic computational (rangefinders) or light projection (laser) sights or aiming devices during archery season. This equipment is already allowed on archery equipment used outside of the archery season.

Muzzleloading Gun Caliber (68A-12.002): Change the minimum caliber requirement for hunting deer with a muzzleloading gun from a minimum of .40 caliber to .30 caliber. This change would make muzzleloading gun caliber regulations consistent with existing air gun regulations.

Statewide Rule Changes

Reallocate Youth Waterfowl Hunt Days:

- Current: 2 consecutive days at end of regular season
- Proposed: Saturday before regular season and 2nd Saturday following regular season

Expand Falconry Opportunities:

- Add 17 days to the falconry dove season

Reallocate Youth Waterfowl Hunt Days (68A-13.003): Reallocate the 2-day youth waterfowl hunt so that one day occurs the Saturday before the regular season and one day occurs the second Saturday after the regular season. This change is intended to provide better and more diverse hunting opportunities for youth within the allowable federal framework.

Expand Falconry Opportunities (68A-13.008): Expand the falconry dove season by 17 days in conformance with federal regulations.
