Subject: Parts Availability for the DeLorean Sports Car

To Whom it May Concern:

When the DeLorean factory in Northern Ireland closed in 1983, the remaining parts inventory, as well as the parts from the United States dealer supply warehouse, were moved to a facility in Columbus, Ohio. These parts included body panels, glass, engines, transmissions, interior trim - literally everything needed to build and repair the DeLorean Sports Car.

In April of 1997, our company purchased the remaining parts, a 50,000 square foot warehouse full of inventory. We also perform mechanical service and body/frame repair as well as restore and sell DeLoreans from our Houston facility, for our customers in the United States and around the world.

If you have any questions about the pricing or availability parts or service/bodywork, please visit our website, or call us at the numbers above.
