

## Florissant Fire Protection District

### Community Chipping Program – 2024 dates 5/31/24 – 6/2/24

Please Contact Florissant Fire Station to be added to the list, limited availability.

=

Email [DistrictAdmin@FlorissantFire.com](mailto:DistrictAdmin@FlorissantFire.com) or call 719-748-3909

There is no cost, however donations are appreciated.

Only items stacked correctly will be chipped:

- Slash piles must be stacked with cut ends all facing toward the road in piles no taller than four feet. We will not chip piles that are not stacked correctly, & we will not chip anything larger than 6" in diameter
- Slash piles must be located on the side of the street or a similar location where the slash can easily be brought to the chipper. The chipper will not go off-road unless personnel have given prior approval.
- Dead sticks, decomposing logs, and pine needles picked up off the ground of your property will not be chipped. Slash must not include root balls, trash, lumber, or rocks.
- We do require at least one member of the household or a knowledgeable representative to be present at the time of chipping. Any extra volunteers are welcome, just please advise us on how many people you anticipate helping. Your participation is key in keeping the program available.
