Nobody likes a cold, damp towel

After a good shower you are clean, warm, comfortable & relaxed...then you step into the room.

How do you like your towel to feel each time that you use it?

And what happens to the towel after it has been used?

regular towel bar	artos [®] heated towel dryer
The towel is around 30° colder than your skin and you feel the chill.	The towel is around 30° warmer than your skin and you remain comfortable until you are dry and dressed.
Always cold...often damp...likely to be harboring germs!	Warm...soft...aired...fresh.
Stays damp and begins to breed airborne bacteria.	Dries quickly and stays fresh and hygienic.

(W) Hardwired

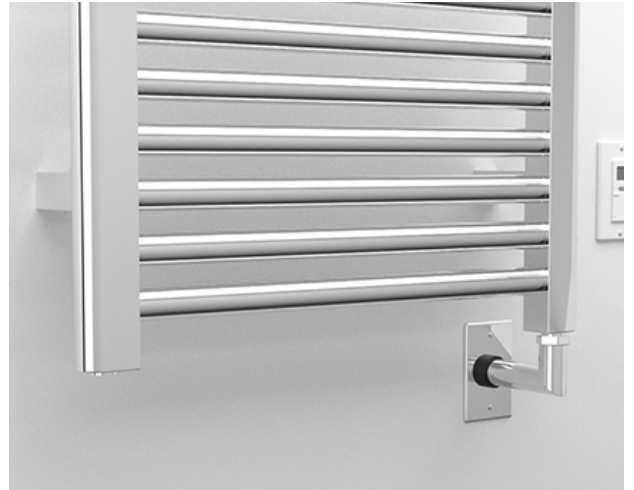

Hardwired Electric

Includes wire encasement kit.
All models, except the Versatile, include a
7 day programmable timer.

Example: Denby 27" x 30" Hardwired Chrome

M06875-W-CH
