

## CodeRedaktor Biography

CodeRedaktor is a covert techno organization formed on Halloween of 2021 by Mars Youngblood and Silence Danforth with the aim of bringing more dancefloor techno to the techno dancefloor. They travel with their techno kit mashing buttons, sliding faders, and tweaking knobs, with tales of espionage and malarkey.

CodeRedaktor released their first three EPs in 2023, *Initial Transmission*, *Decode and Disseminate* and *Book of Spies*. Summer of 2024 brought the release of *Fourth Cipher* which is leading up to a full-length album in the Fall/Winter.

CodeRedaktor has played festivals, basements, renegades, open decks and drinkeries. Their mission is to bring their techno espionage anywhere they can see the lights on their controllers and speakers speak their beats into ears and feet.

CodeRedaktor sets feature their mixed songs to flow with other DJ sets or a full song set, depending on the event. Their sound ranges from a hard techno mix to quirky retro 80's electronic songs.
