

DSUAA 2021-2023

Building Bridges

Connecting Past, Present, and
Future Generations

Diane Kirby '09 **Treasurer**

Diane Kirby has a degree in Business management, where she has taken courses in accounting along with other business-related courses. Diane has also worked at Enterprise, the car rental company. There she learned the how to run a branch from a management perspective.

Diane has worked at DSU for 7 years in Institutional Advancement. She has helped manage the accounts for the DSU Foundation for the first 3 years, which included taking payments, recording them, and sending out payments to vendors. Diane also created and send out financial reports to various account holders.

For the last 4 years, she has worked in Alumni Relations, a division of Institutional Advancement. During this time, Diane has worked with two DSUAA administrations, sending them financial reports and helping them as needed. Diane manages the DSUAA memberships, which includes sending out membership directory.

While Diane has not held any positions in the DSUAA at any level, she has worked with the association as a DSU employee and fellow alumna. Diane would like to be able to help the alumni from both sides; the university side as an employee and the DSUAA side as an alumna. Her hope is that there will be a better communication flow from both sides.
