

Hello everyone

My name is Danny Washburn and I've been in the park for over a year.

Married to Aimee for 22 years and worked at our local power company for 21 years.

We have 1 son Logan he's 17.

I think I would be an asset to the park in many ways but the wholesome values of the park need to be protected and I think my voice on topics points towards making the park great again!

This park is not many islands or an old folk's home but I believe it belongs somewhere in the middle-give and take is the key to any good relationship!

If I'm selected to the board I'll try my best on everything needed of me and if not selected I understand and will still be happy to do whatever I can!

I think the board members we have now are turning the ship away from the iceberg it was headed towards when we moved in last year.

In closing win or lose no hard feelings-still happy to hang out with our friends and neighbors in the park!

If any board members want to talk to me and feel me out more, they can call me any time before 9:00pm!

Thanks for your time!

Danny Washburn
