ABOUT COMPANY

Since 1976, Auto Help Line of America has been assisting insurance agents, dealers, finance companies and auto-related professionals nationwide.

We have become one of the largest independent road service networks in the United States, Canada and Puerto Rico, having serviced over 7 million members with our around the clock team.

TRANSPORTATION NETWORK COMPANY BENEFIT

A digital Uber like experience

Experience seamless support when your vehicle is unexpectedly out of service. Auto Help Line will pay when you use a Transportation Network Company (TNC) service from a commercially licensed TNC, such as Uber or Lyft. This benefit is available to use with your ClaimRide Claim Card.

The value of this product lies in providing financial assistance and convenience to customers when their primary mode of transportation is suddenly available due to a covered vehicle disablement.

This benefit applies only if:

- Your covered auto is disabled and non-drivable.
- Your claim benefits within 24 hours of your auto disablement.
- Photos of your disabled covered auto are required in order to redeem your benefit.

AHL SOLUTIONS TO INDUSTRY PRESSURES

■ Vendor Network Reliability

Auto Help Line maintains a large national network of service providers with performance monitoring - ensuring consistent, high-quality roadside help across regions.

■ Low Profit Margins

We offer cost-efficient pricing and plans that is entirely customizable to you, helping agencies maintain profit while offering value to clients.

■ Bundling Pressure

Auto Help Line allows integration with insurance products, enabling agencies to offer products as a value-add, helping retain customers and justify bundled pricing.

■ OEM & Telematics Competition

Our services doesn't expire after 3 years like OEM plans and can cover used, older, or non-OEM vehicles, expanding the market.
