BLACKBOX PENTESTERS

Welcome!

Hi there!

This little booklet is here to help you stay safe, smart, and confident when using phones, tablets, laptops, and the internet. The online world can be an amazing place, full of games, chats, videos, and things to learn and you deserve to enjoy it safely.

Think of this guide as your **Cyber Superpower Starter Pack**.

Your Cyber Superpowers

Superpower 1, The "Think Before You Click" Skill

Not every message, pop-up, or link is friendly. Some are tricks designed to fool people.

Ask yourself:

- Do I know who sent this?
- Does it look strange or rushed?
- Is it asking me to do something quickly?

If something feels off, stop and tell an adult.

Your Cyber Superpowers

Superpower 2, The "Strong Password Shield"

Your password is your key and only *you* should have it.

A strong password is:

- Long
- Easy for you to remember
- Hard for anyone else to guess

A great tip:

Use a sentence you'll never forget!

Example: DragonCookiesAreMagic123

Never share your passwords, not with friends, not in a game chat, not even with someone pretending to be "support."

Your Cyber Superpowers

Superpower 4, The "Private Info Forcefield"

What's private?

- Your full name
- Your address
- Your school's name
- Your phone number
- Photos showing where you live
- Your passwords

Keep your personal info protected at all times.

Safety Rules for Games & Apps

Rule 2, In-Game Chats Aren't Always Safe

If someone:

- Asks personal questions
- Makes you feel uncomfortable
- Asks for photos
- Tries to move the chat to another platform

End the chat and tell an adult immediately.

FREE STUFF

Safety Rules for Games & Apps

Rule 3, Beware of "Free Stuff"

Offers like:

- "Free coins!"
- "Unlimited gems!"
- "Free skins!"

...are almost always scams. If it sounds too good to be true, it is.

Social Media Safety (For Older Kids)

If you're allowed to use social media (with an adult's permission):

- Keep your account private
- Only add people you know in real life
- Think before you post
- Never share your location
- Remember: nothing online ever fully disappears

Before posting anything, ask yourself: "Would I be happy for a teacher or grandparent to see this?"

What To Do If Something Feels Wrong

If anything online makes you feel:

- Worried
- Scared
- Confused
- Embarrassed
- Pressured

You are **not** in **trouble.** You haven't done anything wrong. Just talk to a trusted adult, they're there to help.

That might be:

- A parent
- A teacher
- A family member
- A instructor
- A friend's parent

The "Cyber Hero" Pledge

Repeat after us:

"I will stay safe online.
I will think before I click.
I will protect my personal information.
I will talk to an adult if something doesn't feel right.
I will use my cyber superpowers kindly and responsibly."

Congratulations, you're officially a **BlackBox Cyber Hero!**

Stay Safe
