

#WISEWEDNESDAY

HOW TO FIND SMALL BUSINESS GRANTS

1. **Federal Government Agencies**- Government agencies are among the biggest distributors of business grants. (Example: www.Grants.gov)
2. **State and Regional Agencies**- Each state's agency helps businesses find financing (including state or regional grants), secure locations and recruit employees. You can search the economic development directory for regional offices and local resources.
3. **Corporate Small Business Grants**- Many corporations and large companies have a philanthropic component that includes small-business grants. (Example: FedEx Small Business Grant)
4. **Speciality Small Business Grants**- To help spread entrepreneurial success across demographics, many organizations focus their funding efforts on specific communities. (Examples: Women, Veterans, Minorities)
