

GPS High-Low Level Alarms

Complete with a control box and float switch, the GPS-ALARM alarm emits an audible warning with flashing light at a pre-set water level. A mute button will silence an activated alarm, resetting when the alarm 'clears'.

This proudly New Zealand– made alarm suits all brands of pump station, and can be converted from a 'high-level' to a 'low-level' alarm simply by changing the configuration of the float switch wiring.

Specifications

Float Switch Finder 72.A1.1.000.1001 :

suitable for grey water

: polypropylene body, 10 metre H05 RN F neoprene cable

: CO SPDT contacts, 250VAC 10A resistive 8A inductive

: IP68, max. temperature +45°C

: max. pressure 10 BAR

Control Box : ABS

: Dimensions 125x125x100mm

: Cable entry glands for supply and float switch

: Buzzer IP40 80dB

Control box must be situated indoors or in an IP68-rated housing
