

**President**

**Mackenzie Warford**

**Elected - DEC 2022**

Dear Esteemed Colleagues,  
I am pleased you have joined the team encouraging food security in Canada. Although we may be spread from coast to coast, our experiences and tribulations in hydroponics follow the same path. Together, we combine over 100 years of hydroponic experience.

Collectively, we accelerate growth, create simple solutions to complex problems and foster a large voice representing the Hydroponic, aeroponic and sustainable; growers, distributors and manufacturers of Canada.

As President, 3 of my current priorities are;

- Gower certification - Successful and Safe growing practices,
- Canadian Manufacturer Certification - Canadian proven technology,
- Lobby Government for support of the hydroponic Industry in Canada.

As a member, keep an eye on our social media page to be the first to know about upcoming events. If an event or technology surfaces, believed to be beneficial to the CHA and its members, please contact us directly. Active engagement and feedback are crucial to the success of CHA.

Please accept this letter as my oath to serve the Canadian Hydroponic Association.

Sincerely

A handwritten signature in blue ink, appearing to read 'Mackenzie Warford'.

Mackenzie Warford

President - Canadian Hydroponic Association
