

Overview

DadBod Coin (\$DAD) is a memecoin built to honor the legendary lifestyle of dads everywhere — grill in one hand, beer in the other, mowing the lawn like it's a battlefield. We're combining crypto with comedy, utility with dad energy. No six-pack needed, just good vibes and steady hands.

Mission

To build a lighthearted but functional crypto ecosystem that rewards community participation, celebrates meme culture, and embraces the everyday greatness of dads.
