

# Processing Crisis

**December 3, 2018 @ 7pm**

*In my brief time in law enforcement, I quickly learned that crisis effects everyone, and it affects everyone differently. Even police personnel who are trained to run towards traumatic events are required to talk to crisis processing professionals after a critical, life and death incident.*

*To that end, Christ the King is sponsoring a Crisis Processing evening on Monday December 3, 2018 from 7-8 pm. There will be professional counselors here to help begin or continue healing and give you resources for dealing with the aftermath of the fires, the recent mass shooting, or any trauma or loss you may have experienced.*

*There is no agenda other than to constructively process thoughts and emotions and provide tools for those who might be struggling and need further support. This event is for both adults and children who have a need. Please come out as we look to move forward together.*

*Pastor Tim Barkett*
