

SPONSORSHIP INFORMATION

A partnership that builds the next generation of engineers

2026–2027 FIRST ROBOTICS SEASON

FRC Team 6366 · Hillcrest High School · Woodmont High School · Simpsonville, SC
A registered 501(c)(3) non-profit organization · EIN 84-3616867

What is FIRST?

FIRST stands for "For Inspiration and Recognition of Science & Technology". This non-profit organization was founded in 1989 by inventor and entrepreneur Dean Kamen to interest and inspire students in mathematics, science and technology. Since then, FIRST has existed with an imperative, singular focus: to excite more young people about the importance, prevalence, accessibility, and fun of science and engineering.

FIRST Robotics Competition is an exciting, multinational competition in which teams made of students who are mentored by professionals compete to solve an engineering design problem in a competitive and intense environment. The program provides young people with life-changing, career-molding experiences – and a lot of fun!

Who is Team 6366?

Students from Hillcrest High School and Woodmont High School in Simpsonville, SC form the core of Team 6366. Hillcrest High School teachers and volunteers from local businesses and industries mentor them.

There are many sub-teams within the team and students learn a variety of workplace skills and soft skills in an industrial environment. Team 6366 provides students experience in collaboration and leadership, while working to further their knowledge and application of science, technology, engineering and math in real-world situations.

Vision, Mission & Budget

Vision Statement

Team 6366's vision is to facilitate the formation and growth of long-term partnerships between educational institutions, industry, and government agencies that will provide powerful enrichment opportunities for students and ensure strong economic and field development on a community, state, and global level through targeted academic and skill training programs.

Mission Statement

Team 6366's mission is to provide team members with the opportunity to enhance their skills, knowledge, and experience in the science and technology career area through a structured, high-quality learning pathway that produces products that can compete on a global level.

Silver Sponsor \$1,000 – \$2,499	LOGO	LOGO	LOGO	LOGO
Bronze Sponsor \$500 – \$999	LOGO	LOGO	LOGO	LOGO

What does becoming a sponsor mean for you?

Becoming a sponsor means that you are supporting a major enrichment opportunity for students going into STEAM or business career pathways, which prepares them for industry. You will be recognized as supporting a program that helps young adults further their skillset and education. Great company recognition also stems from your logos being included on our t-shirts, social media platforms, and the competition robot which will compete at events across the country. The team works alongside thousands of people, as well as multinational organizations and corporations at these events.

YOUR LOGO, ON THE FLOOR.

Team apparel, promotional items, social channels and the competition robot itself — seen by thousands at events nationwide.

How to Donate

Please consider investing in a young person's future in science, technology, engineering, and math through your sponsorship. The attached sheet outlines the team's sponsorship levels. Please make checks payable to Ram Rodz Robotics Booster Club. The RamRodz Robotics Booster Club is a registered 501(c)(3) non-profit organization, so your contribution is tax-deductible to the extent allowed by law.
