

\$TOP

WHITEPAPER

Overview

\$TOP is a Solana-based experimental token built around a simple idea.

The largest holder wins.

Rather than staking, locking, or complex mechanics, \$TOP uses transparent on-chain data to rank holders by balance. At fixed intervals, the top-ranked holder receives a **prize** paid directly from the prize pool.

No sign-ups. No forms.

No intermediaries.

Everything required to participate is visible on-chain and through the official website.

How It Works

1. Users acquire \$TOP on pump.fun / Solana DEXs.
2. Wallet balances are displayed on a public leaderboard.
3. At each snapshot, the largest holder wins the prize.
4. Prizes are paid directly to the winning wallet.

Prize Pool

Guaranteed 8 Rounds

- ✓ Funded transparently, held in a public wallet.
 - ✓ **Top ups as needed.**
 - ✓ Prizes are fixed per round.
 - ✓ Are paid on-chain.
 - ✓ Can be verified via Solscan.
- Separate from development wallets.

Leaderboard & Transparency

The \$TOP leaderboard:

- ✓ Ranks wallets by \$TOP balance
- ✓ Updates automatically
- ✓ Is viewable by anyone.

Snapshots are taken at pre-announced times and winners are verifiable on-chain.

There is no manual selection and no hidden rules.
