

Grant Awarded!

Thank you to the Female Athlete Network (F.A.N.) for awarding PLAY Education a grant to expand access to sports and empower girls across our community. This funding strengthens our ongoing partnership with NeverStopMoving365 and launches new collaboration with Soccer Without Borders, ensuring that girls, especially those facing financial, cultural, or systemic barriers, can build the fundamental movement skills, confidence, and leadership needed to thrive in sports and beyond.

Through this grant, PLAY Education will provide scholarships for personalized NSM365 sessions and jumpstart stipends for high school girls serving as Youth Leaders with Soccer Without Borders. These opportunities help girls develop physical literacy, gain meaningful work-based learning experience, and participate in supportive, inclusive environments where they can show up as their authentic selves.

We are also grateful to Just Between Friends (JBF) for supplementing this partnership by ensuring girls have access to the athletic apparel and equipment they need to participate fully and confidently. JBF's support strengthens the impact of this grant by removing additional barriers that often prevent girls from engaging in sports long-term.

We are thankful to F.A.N. for investing in a future where every girl has the opportunity, access, and encouragement to move with confidence and joy throughout her lifetime.
