Certification Overview

STEP 1

Registered Storage Designer
Have 1 year of industry experience and be a current ACSP member in good standing.

STEP 2

Registered Storage Designer
Pay for the REGISTERED STORAGE DESIGNER test. Receive the study guide and link to the online exam. TAKE THE TEST!

STEP 3

Registered Storage Designer
After passing the RSD exam with a grade of 80% or better, you will receive design challenges! You have 6 weeks to complete the challenges!

STEP 4

Registered Storage Designer
ACSP grades your exams in 14 business days (pass/fail). Passing designs receive a pin and a certificate. Failing projects may resubmit with changes.

STEP 5

Certified Storage Designer
Have 5 years of industry experience and be a current ACSP member in good standing. Must have achieved RSD status.

STEP 6

Certified Storage Designer
Pay for the CERTIFIED STORAGE DESIGNER test. Receive the study guide and link to the online exam. Follows the same process as RSD steps 2-4.

STEP 7

Master Storage Designer
10 years of industry experience & ACSP member in good standing. Achieve RSD & CSD. Pay for MSD evaluation. 7 project portfolio & 3 letters of recommendation.
