Square Feet
Thickness

Gensler Architects along with Turner Construction once again chose K-13 Spray-On Insulation to provide thermal protection in the below grade parking garage. With the majority of all of the Seaport Area utilizing K-13 for its Class A fire rating along with its ability to be applied over fireproofing materials, makes it the clear choice for the safety and comfort of all occupants. For more information on K-13 Spray-On Insulation please call at 508-678-1118 or visit our web site at atiincorporated.com.
