PROJECT PROFILE

Apple Retail Store

PROJECT

Apple Retail Store
1 Providence Place
Providence, RI

ARCHITECT

Arrowstreet Architecture
10 Post Office Square
Boston, MA

DETAILS

K-13 High Build White
15,000 Square Feet
8" Thickness

When Apple decided to expand their store at the Providence Place Mall, they noticed the entire garage was treated with K-13. The question was could they still use K-13 to achieve an R-30. The answer was yes. Utilizing the “High Build” application technique, stick pins were applied to the substrate and 4” of Tan K-13 was applied. Structuralath was then attached with the use of washers preparing it for the final coat of 4” of White K-13. With an aesthetic coating applied over the beams for a thermal break, the application is complete. For more information regarding K-13 call 508-678-1118 or visit our web site @ www.atiincorporated.com.
