When the new hit series Body of Proof came to town, they needed to renovate the studio space quickly and effectively. They didn't choose foam due to the smoke development, they didn't choose sprayed fiberglass due to the lack of bond strength and durability, they chose K-13. They are not alone. The Brotherhood, Providence, and The Notch are also among the many new studios in the New England area that have utilized the multiple characteristics of K-13. Transforming this rusted metal building and providing R-Values and superior Noise Reduction was completed in less than 10 days. For more information regarding K-13 call 508-678-1118 or visit our web site @ www.atiincorporated.com.
