# PROJECT PROFILE

## Cambridge Rindge & Latin School

### PROJECT

Rindge & Latin School  
459 Broadway  
Cambridge, MA

### ARCHITECT

HMFH Architects Inc.  
130 Bishop Allen Drive  
Cambridge, MA

### DETAILS

SonaSpray "fc" Arctic White  
8,300 Square Feet  
.5" Thickness

To truly appreciate the acoustical and aesthetic performance of this newly renovated space, we should have done a before and after. An untreated concrete ceiling with scattered, glued on acoustical tiles was not only an eyesore but did nothing to control reverberation. With the tiles removed, 1/2" of SonaSpray "fc" Arctic White was applied during a total renovation of the space. Transition Complete! For more information regarding SonaSpray "fc" call 508-678-1118 or visit our web site @ [www.atiincorporated.com](http://www.atiincorporated.com).
