DETAILS

K-13 White
300,000 Square Feet
1" Thickness

Six floors and 300,000 square feet later, the tenants of this new contemporary office space are enjoying quiet and echo free living. With a huge atrium and open office floor plan, controlling the acoustics can never be overlooked. The maintenance free ceiling treatment conformed to the metal decks along with concealing the slightly cementitious fireproofing. K-13 was also utilized to provide thermal performance to the integral parking garage. For more information regarding K-13 call 508-678-1118 or visit our web site @ www.atiincorporated.com.
